Educational model

Our 100% online methodology — a proprietary
learning model — is unique, innovative and
internationally renowned

International leader in e-learning

Transforming the model

The **eLearn Center** is the UOC's centre for **innovation and learning transformation** and works to evolve the educational model, attempting to integrate the latest educational and technological trends, but without altering the essence.

Transferring the model

The UOC has made a name for itself around the world as a **quality online university**, serving as a model for Latin American university institutions, quality assurance agencies and supranational entities.

↗ **How our e-learning model is transferred**

Success stories

UOC helps more than 9,000 teachers adapt to remote teaching during the pandemic

Colombia's UNINORTE receives support and advice from the UOC's eLearn Center for its digitalization project

The UOC helped Duoc UC, an accredited, non-profit private institute of higher education in Chile, to roll out its own e-learning model

Ecuador rolls out online learning with the support of the UOC

The UOC advise the Mexican education system on quality online education

The UOC extends its e-learning model to the Middle East with a project in Jordan

The UOC's unique approach to learning is based on **completing activities, and continual guidance and support**.

NETWORKED
COMMUNITY

Virtual Campus

For the UOC community, **the Virtual Campus is where it all happens**. The Campus has virtual classrooms where students can find their course instructors, tutor and fellow students, as well as their activities, materials and tools for learning.

> "Despite being online, professor-student contact at the UOC is probably more intensive and more direct than in traditional universities."
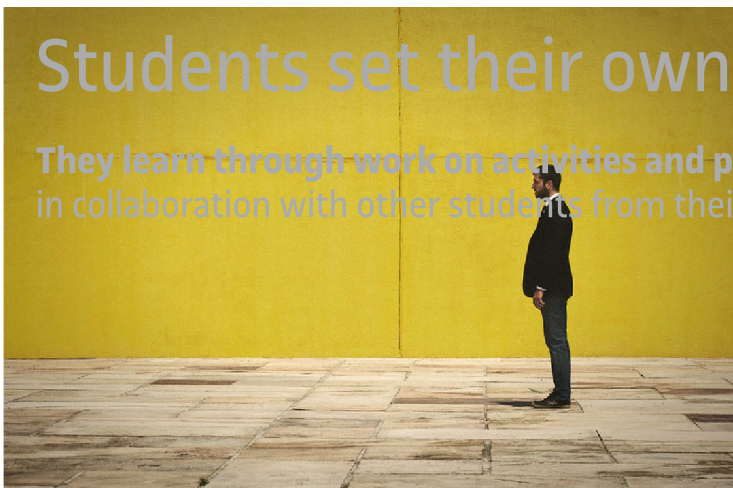

Martin Carnoy, Professor at Stanford University

Teaching takes place in online classrooms and involves competency-based assessment

Students and networking community

Students set their own pace

They learn through work on activities and projects, which are done both individually and in collaboration with other students from their classrooms.

Over time, our educational model has allowed us to touch the lives of students from around the world by **enhancing their professional prospects and life opportunities and turning them into agents of change**, prepared to make improvements to their surroundings and better people's lives.

Graduates are satisfied with their experience at the UOC and **91% of them would choose the same university again**.

☺

Because of the way they study, UOC students develop an **exceptional range of competencies**:

#1
High-level digital skills

#2
Strength when it comes to organization and planning

Teaching staff

- **Coordinating professor**: they design the course, guarantee its quality and coordinate the course instructors.

- **Course instructor**: they guide and assess students learning as they progress in their courses.

- **Tutor**: they advise students in choosing a personalized academic pathway during their time at the UOC.

How is the teaching staff at the UOC organized?

Innovative resources and materials

Learning resources in the online classroom

The teaching materials are available in a variety of formats so that students can make the most of the time they spend learning.

We work to ensure that they are presented in an innovative way so that students can see what they have to do to pass each course, how long it will take and what resources are available when working on them.
