# Make the right choice

Wherever you are in life's journey, whether you are looking to boost your career options or deepen your knowledge, you can be confident that if you choose Leicester you'll get value for money and a degree that will get you to where you want to go.

We have a global reputation for being one of the UK's leading providers of postgraduate education. We offer a broad and adaptable course portfolio to help you to grow academically, personally and professionally.

Everyone at Leicester is here to help you do two things – achieve your career goals and enjoy the Leicester experience. Research underpins what we teach you. We are a research intensive university with strengths in a wide range of areas making real-world impact.

We welcome all students who are creative, curious, committed and career-focused to join the Leicester family of scholars. We provide a wide range of delivery options to enable you to study the way that works best for you.

## FIVE REASONS TO CHOOSE LEICESTER:

1

### CHOICE

You can choose a course to suit your circumstances. We deliver a range of courses in more than 100 fields of study, full-time, part-time, on-campus and off-campus.

2

### LEARN FROM SOME OF THE BEST

You will learn from people who change lives and provide new ways to understand the world. Their work informs your curriculum, meaning your course will provide you with the latest insights.

3

### GREAT CAREERS

Many of our courses are accredited or approved by external organisations and bodies, and our specialist Career Development Service can offer you advice and guidance tailored to your career aspirations. This means you will be career ready upon graduation.

4

### TRULY GLOBAL

We are a university with a truly global outlook. When you graduate from Leicester, you will have received a world-class education from a quality university. You will leave knowing the next generation of global citizens because they were your classmates.

5

### HELP WHEN YOU NEED IT

We have outstanding services to meet all of your needs. From our personal tutor system, learning development and library support teams, to our welfare support, health and childcare options – if you need support, we will provide it.

# Anytime learning, anywhere

Our flexible approach to course delivery means you can choose the course that is right for you and your circumstances.

We offer a range of options for postgraduate study, from professional qualifications to independent research, and on-campus taught programmes to part-time, off-campus study. However you choose to study with us, you'll find a mode of learning that suits your needs.

## **ON CAMPUS**

Studying on campus can open a whole range of new experiences. Our close-knit campus is small enough that you will always see a friendly face, but big enough to meet new friends.

You will benefit from access to great facilities and a thriving community atmosphere.

If you're an international student or commuting from another city, Leicester's central location makes it accessible from all directions.

## **OFF CAMPUS**

Our off-campus courses are perfect if you crave flexibility as they allow you to customise your studies around your life.

You will study the same units and gain the same qualifications as you would if you were on campus, with most students completing our off-campus courses part-time over two to three years. Your course materials will include a combination of printed study material posted directly to your door, as well as electronic resources.

We have over 25 years' experience delivering off-campus learning, and provide a structured and supportive framework to help you at every stage. You will have access to our online virtual learning environment, and will be able to engage with peers from across the globe via our online forums. You'll feel supported no matter where you are.

## **OPTIONS:**

### **POSTGRADUATE CERTIFICATES AND DIPLOMAS**

You can build on your existing knowledge of a subject with a Postgraduate Certificate or Diploma. Most courses last from five to nine months full-time, and many are also available part-time. Taught like a Master's degree, these courses offer an exit early approach leading to a valued professional qualification.

### **MASTER'S DEGREES**

You can extend your expertise further with a Master's degree. As well as the taught elements, you will also have to complete a dissertation or project on a related topic of your choice. Full-time Master's degrees usually involve one year of study, while part-time programmes can last between two and four years.

### **MASTER'S BY RESEARCH (MRes)**

If you have plans to continue your studies to doctoral level (PhD), or embark on a research career, a Master's by Research (MRes) degree could be for you. With fewer taught elements, these courses place greater emphasis on project work and will equip you with and develop the skills necessary for a research career.

### **PROFESSIONAL ENTRY COURSES**

These courses are specifically designed to prepare you to enter a regulated profession such as law, accounting or teaching. Some of these areas can also be studied at an undergraduate level, but a professional-entry Master's course is ideal if you want to enter a different field to that of your first degree.

**OFF CAMPUS (DISTANCE LEARNING)  
COURSES**

Archaeology and Ancient History

Business and Management

Chemistry

Criminology

Economics

Education

Engineering

English

History

History of Art and Film

Media and Communication

Politics and International Relations

Studying at Leicester really opened doors for me. I decided to study a Master's degree to help me get to where I wanted to go: a career in space science.

The MSc offered a very good combination of space science and engineering. The course was delivered by leading experts in their field, and the lecturers shared their personal work and research experiences with us, which I found particularly inspiring.

Thanks to this course, I am now exactly where I want to be.

*Cristina*  
*MSc Space Exploration Systems,*  
*Physics and Astronomy*

#### AWARD-WINNING RESEARCH

Our high quality research was recently recognised by the prestigious Times Higher Education with the DataPoints Merit Award 2017. This award recognises our excellence and wide impact across a variety of fields.

#### DID YOU KNOW?

**The University is home to:**

- 5 research institutes
- 19 supported research centres
- Specialised research groups and individuals undertaking world-leading research

# Life-changing research

We are a highly regarded research university with globally-recognised expertise in many of our disciplines. We invest in research that changes the way we think about the world, and how we live and work in it.

Our research expertise has real-life applications to the needs of business and the community – providing solutions and influencing change to global intellectual, medical, scientific, cultural, environmental and economic issues.

This high quality research feeds directly into our high quality teaching. You will be exposed to the most up-to-date knowledge informed by leading research, as well as encouraged to contribute your own perspectives and experiences to enrich your learning experience.

The projects highlighted below offer a glimpse into some of the innovative, life-changing research conducted at Leicester:

## **LIFE SCIENCES**

- Our immunologists are finding a replacement for antibiotics using viruses to fight and kill bacteria.
- Our researchers are dedicated to ensuring people with diabetes live long and healthy lives.
- Genetic fingerprinting was discovered in one of our labs, revolutionising crime scene investigations, immigration disputes and paternity cases.

## **SCIENCE AND ENGINEERING**

- We are home to the only formal UK science lead for the Juno mission, NASA's programme to study our solar system's largest planet, Jupiter.
- Geologists are investigating the origin and implications of the Anthropocene, a potential new geological time interval.
- We provide creative solutions to local and global air quality challenges.

## **SOCIAL SCIENCES, ARTS AND HUMANITIES**

- We completed Britain's largest ever study of hate crime victimisation.
- Working with the National Trust, we are telling the stories of the men and women who challenged conventional notions of gender and sexuality.
- We led the most remarkable archaeological discovery of recent times, unearthing the remains of King Richard III from a city car park.
- We are driving efficiency in the public sector using methodology from the car industry.

# Help and support

We provide a warm and welcoming postgraduate experience. Whether you are continuing your education from your undergraduate studies or are returning after a period away, we have a strong network of support services that will help you to achieve your goals.

The Student Services Centre is the central point of information and advice for all students, and will be your first port of call if you do need any extra help or advice. All of our services are free, and our friendly staff are there for you.

## **STUDY SKILLS**

We have a variety of resources and support available if you want to refresh, extend and develop your academic skills. You can access online courses, printed or downloadable guides, take part in workshops or even have one-to-one consultations.

We know students learn in different ways. All of our lectures are recorded and made available online via our lecture capture technology, and our virtual learning environment is a great online space for additional resources to supplement your studies.

**[www.le.ac.uk/succeedinyourstudies](http://www.le.ac.uk/succeedinyourstudies)**

## **CAREER DEVELOPMENT SERVICE**

You will receive personal and professional support through our Career Development Service. They can support you in gaining experience and developing your skills to help you achieve your future career aspirations. From CV writing and how to stand out at assessment centres, to advice from start-up and enterprise specialists, they can even connect you with local, national and international employers.

**[www.le.ac.uk/careers](http://www.le.ac.uk/careers)**

## **LIBRARY**

The David Wilson Library is a first-class study environment with wireless access throughout. It has 24/5 opening during term-time, hundreds of PCs, laptop loans, group study rooms and a cafe on site. Our librarians provide detailed advice on finding and using the resources. You will also have access to our digital library, which contains more than 940,000 eBooks and 75,000 electronic journals. The new Digital Reading Room is an outstanding social learning space with an interactive table and wall. Here, students and staff can discover, collaborate and share ideas online and in person.

**[www.le.ac.uk/library](http://www.le.ac.uk/library)**

### **SUPPORT FOR INTERNATIONAL STUDENTS**

We are here to help you enjoy your time at university and life in the UK. Our International Student Support Team provides continuing support to ensure your experience will be a positive and successful one. Available support includes:

- Pre-departure information
- Welcome Week and orientation to the University
- Help with any visa matters
- English language support courses and classes (see page 16)
- Social activities and events specifically for international students

### **SUPPORT FOR STUDENTS WITH DISABILITIES**

If you have a sensory disability, a mobility or mental health difficulty, a specific learning difficulty, such as dyslexia, or a long-term condition of any kind that you will be managing as you study, we have a range of specialist services available to support you.

[www.le.ac.uk/accessability](http://www.le.ac.uk/accessability)

### **COUNSELLING AND WELLBEING**

Our counselling services provide confidential, face-to-face emotional support. Short-term support and advice is also available face-to-face or by email and telephone.

[www.le.ac.uk/welfare](http://www.le.ac.uk/welfare)

### **FAITH AND FRIENDSHIP**

The Chaplaincy welcomes everyone regardless of faith. Chaplains provide support and advice, and are happy to discuss matters of faith with you. World Faiths Advisors exist for Jewish, Muslim, Hindu, Ba'hai, Sikh, and Buddhist students, as well as students of other religions.

Muslim students have prayer rooms set aside for their needs on campus.

[chaplaincy@le.ac.uk](mailto:chaplaincy@le.ac.uk)

[www.le.ac.uk/chaplaincy](http://www.le.ac.uk/chaplaincy)

# Student life

Life as a postgraduate student involves much more than just studying for your degree. You can get involved in research groups, contribute to postgraduate journals and take advantage of a broad range of opportunities to gain new skills. If you choose to study with us on campus, you will be able to enjoy state-of-the-art facilities for every aspect of student life. With incredible opportunities to get involved in social activities, sport, volunteering and the arts, you will make memories that will last a lifetime.

### **STUDENTS' UNION**

In the centre of campus, the Students' Union is the perfect place to go in-between lectures. It provides a wide range of services including academic advice and welfare support, shops and bars, and live music venue, Leicester O<sub>2</sub> Academy.

The Students' Union is also home to a diverse collection of more than 200 student clubs and societies, including specific postgraduate groups. Joining a society is a great way to make new friends and try something different.

[www.leicesterunion.com](http://www.leicesterunion.com)

### **SPORT**

Whether you're looking to stay fit and have fun doing it, or are an elite athlete, our sports facilities will provide everything you need.

We have two state-of-the-art sports centres, both of which are full of modern equipment. A swimming pool, sauna, steam room and spa pool, plus group exercise classes all help you to keep healthy and relax.

We also have more than 30 sports clubs that welcome beginners through to seasoned competitors, and our Let's Do Leicester programme gives you the chance to try out a variety of sports.

[www.le.ac.uk/sports](http://www.le.ac.uk/sports)

### **ARTS**

Our Attenborough Arts Centre offers a fantastic programme of live events, music, comedy and theatre, and its new free gallery is one of the largest contemporary art spaces in the region. You can also sign-up for a variety of arts courses including life drawing, photography, Latin American dance or creative writing, with student discounts. Attenborough Arts also runs a De-stress Fest of activities to help you relax.

[www.attenborougharts.com](http://www.attenborougharts.com)

### **MUSIC AND THEATRE**

Leicester enjoys a thriving music and theatre scene. We have a chamber choir, a concert band, a chorus, a big band, an orchestra and one of the best university gospel choirs. We also have an acclaimed drama society, which has performed Shakespeare at Stratford. Not only can you enjoy multiple performances throughout the year, they are always looking for new members.

We are proud to support our talented musical students with a series of music scholarships (see page 15).

[www.le.ac.uk/music-scholarships-pg](http://www.le.ac.uk/music-scholarships-pg)

# Accommodation

If you choose to live in University accommodation, you will soon feel at home and part of our community. We have a variety of self-catered packages specifically for postgraduate students, so you can choose a place to live that suits you and your budget.

Our accommodation is ideally located within easy walking distance to our campus and only a 15-minute walk from the city centre. The train station is a 10-minute walk and there are regular bus services. Leicester is also a cycle friendly city.

## **COSTS**

Accommodation fees vary according to the location, facilities and room type, including standard and en suite options. For up-to-date prices for all our residences, see our website.

**[www.le.ac.uk/accommodation-pg](http://www.le.ac.uk/accommodation-pg)**

## **MAKING YOUR APPLICATION**

As soon as you've accepted your conditional or unconditional offer of study with us, you can apply for your accommodation online. We guarantee an offer of a place in University-allocated accommodation for all new postgraduate students who apply by 1 September of their year of entry.

## **PRIVATE ACCOMMODATION**

If you would prefer to live in private accommodation, or you need to find accommodation suitable for a family, SUlets is a lettings agency in association with our Students' Union that can help you find an affordable and convenient place to live.

**[www.sulets.com](http://www.sulets.com)**

# The city of Leicester

Leicester is a vibrant, multi-cultural city located in the very heart of the United Kingdom. Leicester is one of the most affordable cities for students. Like other major cities in the UK, Leicester – the second happiest city in the country – is welcoming and friendly, with plenty of activities for you to enjoy throughout the year.

## FIVE THINGS YOU MUST DO IN LEICESTER

### 1. HAVE A CURRY ON THE GOLDEN MILE

A previous winner of the Curry Capital of Britain award, curry fans should make sure to sample the delights of Belgrave Road. If a curry is not your dish of choice, there's plenty of other cuisines to choose from, including Turkish, Brazilian and Spanish, meaning there is something for everyone to enjoy.

### 2. ENJOY ONE OF OUR FAMOUS FESTIVALS

Diwali celebrations in Leicester are some of the biggest and best outside of India. Also not to be missed are the UK's second biggest Caribbean Carnival and the city's annual comedy festival, which attracts some of the biggest comedians in the country.

### 3. GET BEHIND OUR TEAMS

Ranked the UK's Greatest Sporting City for 2016, Leicester is home to some fantastic sports teams. The Leicester Tigers are England's most successful rugby club, and who could forget Leicester City Football Club's historic Premier League victory in 2016? The Leicester Riders are the recent British Basketball League (BBL) Play-off and Cup champions, and Leicestershire County Cricket Club play just down the road from the University over the summer months.

### 4. VISIT A LONG-LOST KING

You can discover Leicester's rich history by paying a visit to one of the city's museums. The King Richard III Visitor Centre tells the incredible story of the discovery of the Last Plantagenet King of England. The New Walk Museum and Art Gallery and the National Space Centre are also popular attractions.

### 5. SHOP TILL YOU DROP

With a mix of established global brands alongside independent boutiques and traditional markets, Leicester is a great place for shopoholics. The Highcross Shopping Centre boasts 110,000 square metres of leading high street stores and restaurants, and just next door you'll find The Lanes, which are full of boutiques and speciality independent shops.

[www.visitleicester.info](http://www.visitleicester.info)

We have a flexible payment options and a number of sources of financial support available.

You may also be eligible for scholarships and bursaries or financial aid provided by various governments, companies and charities.

## Fees, funding and scholarships

### **TUITION FEES**

Our fees vary between courses and modes of study (on-campus or off-campus). They also differ depending on whether you are a Home, EU or an international student. Some of our courses will also have additional study costs for course materials and field trips. Please see your course webpage for more information about your fees (see course directory, page 18).

### **PAYING BY INSTALMENTS**

If you are studying an on-campus course, you may pay your fees in two instalments during the year. If you study off campus, you usually pay your fees in three equal instalments each year, however this may vary by course.

### **PAYING A FEE DEPOSIT**

Due to limited places on our medical sciences, biosciences and psychology courses, you will be required to pay a deposit or provide evidence of sponsorship, a scholarship or a loan application in order to secure your place.

[www.le.ac.uk/pg-deposit](http://www.le.ac.uk/pg-deposit)

### **FUNDING FOR HOME AND EU STUDENTS**

#### **University of Leicester Scholarships**

You may be eligible for a partial scholarship for your Master's degree, with departments supporting specified areas. Scholarships become available at various times of the year, so make sure you check our website regularly to see all of our available scholarships.

[www.le.ac.uk/scholarships-pg](http://www.le.ac.uk/scholarships-pg)

#### **Postgraduate Loan**

If you are a Home/EU student, a Postgraduate Loan is now available from the UK government to support you in paying for your Master's course. You are eligible to apply for a loan of up to £10,000 whether you intend to study full-time or part-time. This loan is a contribution towards your tuition fees and living costs.

[www.gov.uk/postgraduateloan](http://www.gov.uk/postgraduateloan)

#### **Bank loans**

Professional and Career Development Loans are currently offered by a number of high street banks. You should apply well in advance of your course starting to give the bank enough time to process your application.

[www.gov.uk/career-development-loans](http://www.gov.uk/career-development-loans)

#### **Employer sponsorship**

Some organisations will sponsor their employees on vocational or relevant courses that fit their business needs. Your employer may be able to support you by fully or partially paying your tuition fees. Often your study is undertaken part-time or off campus to enable you to continue working during your studies.

## FUNDING FOR INTERNATIONAL STUDENTS

We offer a generous range of scholarships for international students. We also have links with external providers of scholarships for international students studying at Leicester.

Almost all scholarships are awarded on the basis of academic merit. They provide only partial funding support, so you are likely to need a combination of funding sources. Remember to plan so that you can meet the deadlines for your scholarship applications.

[www.le.ac.uk/international-scholarships](http://www.le.ac.uk/international-scholarships)

### President's Scholarship

You are eligible to apply for this programme, which offers a £3,500 reduction in tuition fees, if you are a new international (non-EU) student on a full-time, taught, on-campus Master's programme.

### Head of College Scholarship

If you are a new international (non-EU) student on a full-time, taught, on-campus Master's programme, you can apply for this scholarship, which offers a £2,500 reduction in tuition fees.

### Departmental Scholarships

Some of our Departments and Colleges may also offer partial scholarships for Master's programmes in specific areas. You should contact your department to find out if your course is eligible.

### Discount schemes

If you are the sibling, spouse or child of someone who is either currently studying on, or has graduated from, a full-time course at the University, we offer a Family Loyalty Discount. This entitles students undertaking an on-campus programme to a 10% reduction in tuition fees.

### Santander Scholarships

If you are a new taught Master's student from a qualifying Santander network country, you may be eligible to apply for this scholarship, which offers a £5,000 reduction in tuition fees.

[www.le.ac.uk/santander-scholarships](http://www.le.ac.uk/santander-scholarships)

### Commonwealth Shared Scholarships

This scholarship is available to you if you are a student from a developing country within the Commonwealth and will be studying an eligible one-year, full-time Master's programme.

[www.cscuk.dfid.gov.uk](http://www.cscuk.dfid.gov.uk)

### Chevening Scholarships

If you are an outstanding established or emerging leader from one of the UK government's selected nations wishing to pursue a one-year Master's degree in any subject, you could be eligible for this scholarship.

[www.chevening.org](http://www.chevening.org)

### Saïd Foundation Scholarship Programme

We are a partner university of the Saïd Foundation, which offers around 20 scholarships each year to future leaders for postgraduate study (Master's or PhD). If you are from Syria, Lebanon, Jordan, Palestine or Israel, you may be eligible to apply.

[www.saidfoundation.org](http://www.saidfoundation.org)

## FUNDING AVAILABLE TO ALL

### Alumni Loyalty Discount

If you have already completed an undergraduate degree (or PGCE course) at the University of Leicester and are a self-financing student, you are entitled to 20% off the course fees of all of our postgraduate degrees, apart from PGCE courses.

[www.le.ac.uk/studentships](http://www.le.ac.uk/studentships)

### Music and Sports Scholarships

We offer music and sports scholarships for talented students wishing to pursue their musical or sporting activities whilst at the University.

[www.le.ac.uk/music-scholarships-pg](http://www.le.ac.uk/music-scholarships-pg)  
[www.le.ac.uk/sports-scholarships-pg](http://www.le.ac.uk/sports-scholarships-pg)

# Entry requirements

All prospective students should review application information on the relevant course webpages.

If you are an international student, you will also need to meet our English language requirements.

## **ACADEMIC ENTRY REQUIREMENTS**

You should have – or expect to obtain before starting – a First or Second Class honours degree from a UK university or an equivalent qualification.

For detailed entry requirements, please see the course directory or the relevant course webpage.

## **NON-STANDARD QUALIFICATIONS AND PROFESSIONAL EXPERIENCE**

Other academic and professional qualifications and experience may be taken into account and, in some cases, form an integral part of the entry requirements. Where other academic/professional qualifications or experience is required, details will be included in the online programme description.

**[pgadmissions@le.ac.uk](mailto:pgadmissions@le.ac.uk)**  
**[www.le.ac.uk/pgapplyonline](http://www.le.ac.uk/pgapplyonline)**

## **ENGLISH LANGUAGE REQUIREMENTS**

To study at Leicester you must meet our English language requirements. These requirements vary according to your course – please see the relevant course webpage for more information. If you require a Tier 4 (General) visa for degree level study in the UK, your English language level must also meet the requirements set by the UK government in addition to our English language requirements.

If you need to obtain a Tier 4 visa for an English language pre-session programme, you must take a Secure English Language Test (SELT) at a UKVI approved centre. Please check the UKVI website for the latest information.

**[www.gov.uk/tier-4-general-visa](http://www.gov.uk/tier-4-general-visa)**

## **INTERNATIONAL STUDENTS**

We accept postgraduate students from all over the world and have experience in evaluating your qualifications. If you need advice on whether your qualifications meet our requirements, please contact the Postgraduate Admissions Team.

Members of our team travel around the world to meet you. They attend exhibitions, offer information sessions and interview candidates. Our agents around the world can also provide information on the University and help with your application. A list of agents is available on our website and you can find out where we will be visiting and contact details of our in-country resident staff, please see our website.

**[www.le.ac.uk/international](http://www.le.ac.uk/international)**  
**[pgadmissions@le.ac.uk](mailto:pgadmissions@le.ac.uk)**  
**[www.le.ac.uk/pgapplyonline](http://www.le.ac.uk/pgapplyonline)**

## **ENGLISH LANGUAGE SUPPORT**

Our English Language Teaching Unit (ELTU) offers a range of services to help you develop the English skills you will need for academic study. These include pre-session and in-session English language programmes. The ELTU is accredited by the British Council and is an Authorised Centre for University of Cambridge ESOL Examinations.

**[www.le.ac.uk/eltu](http://www.le.ac.uk/eltu)**

# A step-by step guide to your application

1. Visit [www.le.ac.uk/courses-pg](http://www.le.ac.uk/courses-pg) for course descriptions and details of all our postgraduate programmes.
2. Check that you meet our standard academic and English language entry requirements as well as any additional entry requirements.
3. Draft a brief personal statement (up to 1,000 words) that tells us:
  - Why you wish to study your chosen course
  - How your previous academic and/or professional experience has given you the skills needed to study at postgraduate level
  - How taking this course will support your personal and/or professional development plans
4. Prepare your supporting documents – with your application you will need to provide:
  - Two references (at least one of your referees must be able to comment on your academic abilities – such as a tutor from a previous course)
  - Copies of your degree/qualification certificates
  - Copies of your degree/qualification transcripts – showing modules taken and marks received
  - Evidence that you meet our English language entry requirements (if English is not your first language)
5. Submit your online application and electronic copies of your supporting documents.

Please note that all applications should normally be submitted online.

## THINGS TO REMEMBER

- Read any course information carefully before submitting your application.
- Most of our full-time postgraduate courses start in October – if other start dates are available, this will be noted in the Course Directory.
- Off-campus courses may have multiple start dates throughout the year.
- Places on many courses fill up fast, so you should submit your application as early as possible.
- Make sure you provide all required supporting documents – we cannot consider your application without these.
- Please allow at least 10 working days for us to consider your application and inform you of our decision.

## PGCE APPLICANTS

Please note that applicants for the Postgraduate Certificate in Education (PGCE) should follow the advice at:

[www.le.ac.uk/education](http://www.le.ac.uk/education)

# Course directory

For full and up-to-date details, visit  
our postgraduate study website

[www.le.ac.uk/courses-pg](http://www.le.ac.uk/courses-pg)

## **COURSE KEY**

PG Cert – Postgraduate Certificate

PG Dip – Postgraduate Diploma

MA, MSc, MRes – Master's level courses

# Archaeology and Ancient History

We have a global reputation for archaeology and ancient history. We conduct internationally-recognised research in a wide range of areas. We offer an exciting, innovative study environment, allowing you to make your own contribution to our understanding of the past.

## ARCHAEOLOGY AND HERITAGE

**This is for you if...** you want the flexibility of an off-campus course while gaining a deeper understanding of archaeology and heritage, buildings and landscapes, and how we value and understand the archaeological heritage.

### COURSE LEVEL

MA, PG Dip, PG Cert

### MODE OF STUDY

Off campus (distance learning)

### LENGTH OF COURSE

Two years part-time

### ENTRY REQUIREMENTS

2:1 degree in Archaeology (or Anthropology in North America) or a closely related subject.

### CURRENT MODULES

#### Core modules

- Critical Approaches to the Archaeological Heritage
- Dissertation (MA Only)

#### Option modules

- Landscape Archaeology
- Archaeology and Education
- Doing Historical Archaeology
- Archaeology of Standing Buildings
- The Historical Archaeology of England

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

[www.le.ac.uk/archaeology-heritage-ma-dl](http://www.le.ac.uk/archaeology-heritage-ma-dl)

**"The School of Archaeology and Ancient History fosters creativity and originality in a vibrant research environment. The support and expertise have exceeded all of my expectations, providing a wealth of opportunities that have enabled my research to develop in new and often surprising directions."**

*Emily, MA Archaeology and current PhD student*

## ARCHAEOLOGY

**This is for you if...** you want to deepen your understanding of civilisations and societies of the past, and engage more critically with current archaeological debates and issues.

### COURSE LEVEL

MA, PG Dip

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time or two years part-time, (PG Dip 9-18 months)

### ENTRY REQUIREMENTS

2:1 degree in Archaeology, or the equivalent for overseas or European applicants.

### CURRENT MODULES

#### Core modules

- Theory and Practice in Archaeology
- Dissertation (MA Only)

#### Option modules

- Neolithic Britain
- Human Skeletal Analysis
- The Connecting Sea
- Approaches to Pompeii and Herculaneum
- Textiles, Dress and Identity in the Roman World
- Warfare Conflict and Violence
- Early Christian Europe
- Archaeology of Standing Buildings
- Humans, Animals and Disease
- Willow Smoke and Dogs' Tails
- GIS in Archaeology
- Rome and its Neighbours
- The Historical Archaeology of England
- Classical Art
- Medieval Landscapes, 400-1500

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

[www.le.ac.uk/archaeology-ma](http://www.le.ac.uk/archaeology-ma)

## THE CLASSICAL MEDITERRANEAN

**This is for you if...** you want the flexibility of an off-campus course and you are interested in tracing, debating and interpreting the archaeology and history of the Classical Mediterranean world, as well as investigating its reception in the modern world.

### COURSE LEVEL

MA, PG Dip, PG Cert

### MODE OF STUDY

Off campus (distance learning)

IELTS 6.5 or equivalent

#### ACCREDITATION

We participate in the Chartered Financial Analysis Institute's (CFA) Investment Foundations Academic Programme, which means that our MSc Banking and International Finance covers the syllabus of their Foundations Certificate examination.

[www.le.ac.uk/bank-finance-msc](http://www.le.ac.uk/bank-finance-msc)

## BUSINESS ANALYSIS AND FINANCE

**This is for you if...** you want to apply your understanding of economics and quantitative techniques to the analysis of problems in business regulation, organisation and finance.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

A good second-class honours degree or equivalent from a recognised university with either accounting, business, economics or finance content, or mathematical or statistical content.

### CURRENT MODULES

#### Core modules

- Professional Skills in Finance
- Foundations of Mathematics for Finance
- Financial Analysis and Investment
- Financial Modelling
- Financial Statement Analysis
- Economics of Organisations
- Corporate Finance
- Financial Accounting and Audit
- Management Accounting
- Business and Financial Forecasting

#### Option modules

- International Money and Finance
- Financial Derivatives
- Macroeconomic Environment
- Financial Risk Management
- Fixed Income Securities
- Market Microstructure and Trading
- Public Finance
- Empirical Finance
- Accountability, Representation and Control
- Finance, Markets and Organisations

#### ENGLISH LANGUAGE

IELTS 6.5 or equivalent

#### ACCREDITATION

We participate in the Chartered Financial Analysis Institute's (CFA) Investment Foundations Academic Programme, which means that our MSc Business Analysis and Finance covers the syllabus of their Foundations Certificate examination.

bus-analysis-finance-msc](http://www.le.ac.uk/bus-analysis-finance-msc)

## ECONOMICS

**This is for you if...** you want to develop an advanced understanding of theoretical and applied microeconomics, macroeconomics and econometrics in preparation for PhD study.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

A good second-class honours degree or equivalent in economics from a recognised university. An upper second-class result should be held for final year modules in microeconomics, macroeconomics and econometrics.

### CURRENT MODULES

#### Core modules

- Maths for Economists
- Macroeconomic Theory I
- Microeconomic Theory I
- Econometric Theory
- Microeconomic Theory II
- Macroeconomic Theory II
- Research Methods and Dissertation

PLUS one from:

- Applied Microeconometrics OR
- Applied Macroeconometrics

#### Option modules

- Forecasting I
- Development Economics
- Experimental Economics
- International Money and Finance
- Game Theory
- Applied Microeconometrics (if not chosen as a core module)
- Applied Macroeconometrics (if not chosen as a core module)

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent

[www.le.ac.uk/economics-msc](http://www.le.ac.uk/economics-msc)

## FINANCE

**This is for you if...** you want the flexibility of studying off campus whilst developing and enhancing your knowledge and skills in the areas of finance and financial management.

### COURSE LEVEL

MSc

### MODE OF STUDY

Off campus (distance learning)

### LENGTH OF COURSE

Two to two-and-a-half years part-time

### ENTRY REQUIREMENTS

A good second-class honours degree or its equivalent; OR a postgraduate diploma from a recognised institution; OR relevant graduate level professional qualification alongside substantial relevant work experience.

### CURRENT MODULES

#### Core modules

- Foundations of Knowledge and Professional Skills
- Foundations of Financial Analysis and Investment
- Strategic Financial Management
- Financial Modelling
- Financial Risk Management
- Financial Statements: Theory, Practice and Critique
- Corporate Finance
- Research Methods and Dissertation

#### Option modules

- International Finance and Globalisation
- Public Finance
- Alternative Economies
- Branding and Communication
- Business to Business and Supply Chain Management
- Employee Relations
- Knowledge Management
- Leadership: Foundational and Critical Perspectives
- Managing Information: Technology and Systems
- Strategic Human Resource Management
- Total Quality Management

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent

[www.le.ac.uk/finance-msc-dl](http://www.le.ac.uk/finance-msc-dl)

## FINANCE

**This is for you if...** you want to learn the mechanics of financial markets, understand the financial decisions of corporations and the nature of financial risk.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

A good second-class honours degree or equivalent from a recognised university with either accounting, business, economics or finance-related content, or mathematical or statistical content.

### CURRENT MODULES

#### Core modules

- Professional Skills in Finance
- Foundations of Mathematics for Finance
- Financial Analysis and Investment
- Financial Modelling
- Financial Statement Analysis
- Corporate Finance
- Financial Derivatives
- Financial Risk Management
- Investment Management
- Behavioural Finance

#### Option modules

- International Money and Finance
- Macroeconomic Environment
- Fixed Income Securities
- Market Microstructure and Trading
- Financial Accounting and Audit
- Public Finance
- Empirical Finance
- Accountability, Representation and Control
- Finance, Markets and Organisations

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent

### ACCREDITATION

We are a programme partner of the Chartered Financial Analysis Institute (CFA) and our MSc Finance covers over 70% of the CFA Candidate Body of Knowledge, which provides you with an excellent preparation for Level 1 and 2 examinations.

[www.le.ac.uk/finance-msc](http://www.le.ac.uk/finance-msc)

## FINANCIAL ECONOMICS

**This is for you if...** you want to deepen your knowledge of economics or finance and potentially go on to study a PhD or research in economics or finance.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

A good second-class honours degree or equivalent from a recognised university in economics or finance.

### CURRENT MODULES

#### Core modules

- Theory of Finance
- Microeconomics
- Macroeconomics
- Econometric Theory
- Empirical Finance
- Corporate Finance
- Research Methods and Dissertation

#### Option modules

- International Money and Finance
- Financial Derivatives
- Financial Risk Management
- Fixed Income Securities
- Market Microstructure and Trading
- Public Finance
- Finance, Markets and Organisations

## FINANCIAL RISK MANAGEMENT

**This is for you if...** you want to equip yourself with skills in risk management techniques, quantitative analysis, financial analysis and programming.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

A good second-class honours degree or equivalent from a recognised university with either accounting, business, economics or finance-related content, or mathematical or statistical content.

### CURRENT MODULES

#### Core modules

- Professional Skills in Finance
- Foundations of Mathematics for Finance
- Financial Analysis and Investment
- Financial Modelling
- Financial Statement Analysis
- C++ Programming for Finance
- Financial Risk Management
- Financial Derivatives
- Advanced Financial Risk Management
- Investment Management
- Dissertation

#### Option modules

- International Money and Finance
- Corporate Finance
- Macroeconomic Environment
- Fixed Income Securities
- Market Microstructure and Trading
- Financial Accounting and Audit
- Public Finance
- Empirical Finance
- Accountability, Representation and Control
- Finance, Markets and Organisations

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent

### ACCREDITATION

We are an academic partner of the Global Association of Risk Professionals (GARP) and our MSc Financial Risk Management will prepare you for the Financial Risk Management (FRM) professional examinations.

We participate in the Chartered Financial Analysis Institute's (CFA) Investment Foundations Academic Programme, which means that our MSc Financial Risk Management covers the syllabus of their Foundations Certificate examination.

[www.le.ac.uk/finance-riskmgt-msc](http://www.le.ac.uk/finance-riskmgt-msc)

## FORECASTING AND ECONOMIC ANALYSIS

**This is for you if...** you want to know more about the use of cutting edge techniques in quantitative financial and economic analysis.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

A 2:1 undergraduate degree in economics (or equivalent) from a recognised university OR a 2:2 undergraduate degree in economics (or equivalent) with a 2:1 in final year modules in macroeconomics and econometrics or equivalent from a recognised university.

### CURRENT MODULES

#### Core modules

- Maths for Economists
- Forecasting I
- Macroeconomic Theory I
- Econometric Theory
- Forecasting II
- Applied Macroeconometrics
- Research Methods
- Dissertation

#### Option modules

- Theory of Finance
- Developmental Economics
- Managerial Economics
- International Money and Finance
- Macroeconomic Theory II
- Applied Microeconometrics
- Financial Risk Management

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent

[www.le.ac.uk/forecasting-economic-analysis-msc](http://www.le.ac.uk/forecasting-economic-analysis-msc)

## MANAGEMENT, FINANCE AND ACCOUNTING

**This is for you if...** you want to study how management, finance and accounting functions work together in contemporary organisations and how this interaction affects organisational behaviour and change.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

A good second-class honours degree or its equivalent; OR a postgraduate diploma from a recognised institution; OR a relevant graduate level professional qualification; OR a demonstration of considerable relevant practical experience and evidence of the ability to cope with the demands of the course.

### CURRENT MODULES

#### Core modules

- Professional Skills in Finance
- Business Economics
- Financial Analysis and Investment
- Organisational Behaviour
- Accountability, Representation and Control
- Strategic Management

#### AND EITHER

- Management Accounting
- Accounting Representations: Public and Private Sectors
- Dissertation

#### OR

- Management Accounting OR Accounting Representations: Public and Private Sectors
- Research Methods for Managers
- Dissertation

### Option modules

- Financial Risk Management
- Financial Accounting and Audit
- Social and Environmental Accounting
- Contemporary Issues in International Finance Reporting
- Finance, Markets and Organisations
- International Business
- International Human Resource Management
- Knowledge Management
- Corporate Social Governance

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent

### ACCREDITATION

We participate in the Chartered Financial Analysis Institute's (CFA) Investment Foundations Academic Programme, which means that our MSc Management, Finance and Accounting covers the syllabus of their Foundations Certificate examination.

[www.le.ac.uk/mgt-finance-accounting-msc](http://www.le.ac.uk/mgt-finance-accounting-msc)

# Education

Whether you are looking to take the first steps into teaching, or looking to develop and improve your practice, our courses will help you achieve your goals. We are at the forefront of innovation in education across a broad range, from communities and families, to schools, further and higher education institutions, and public sector organisations.

**“The lecturers are incredibly supportive and allow you the freedom to research and explore your own interests from day one, making us stand out from the crowd as confident, active members of the research community.”**

*Lily, MA International Education*

## **EDUCATIONAL LEADERSHIP**

**This is for you if...** you are working in an educational setting and have an interest in how leadership and learning are connected in driving change, or you wish to develop your skills to progress in educational leadership.

## **COURSE LEVEL**

MSc

## **MODE OF STUDY**

Off campus (distance learning)

## **LENGTH OF COURSE**

Two years part-time

## **ENTRY REQUIREMENTS**

- Either: at least a 2:1 degree or equivalent  
Or: UK Qualified Teacher Status or its equivalent professional status in an educational organisation.
- At least three years' teaching experience, or alternatively, three years with equivalent professional status in an educational organisation.
- You must be currently employed in, or have access to, an educational organisation or provider. This could include working in a school, college, the military or in Government, or training roles in other sectors.

## **CURRENT MODULES**

### **Core modules**

- Educational Leadership, Learning and Change
- External Influences on Educational Leadership
- Research Methods Part 1
- Organisational Effectiveness, Improvement and Transformation
- Research Methods Part 2
- Dissertation

## **ENGLISH LANGUAGE**

IELTS 6.5 or equivalent

[www.le.ac.uk/education-leader-msc-dl](http://www.le.ac.uk/education-leader-msc-dl)

## INTERNATIONAL EDUCATION

**This is for you if...** you want to enhance your understanding of contemporary issues in primary, secondary and post-compulsory education in international contexts.

### COURSE LEVEL

MA

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

- 2:2 or above (or equivalent) GPA 3 (US equivalent) or above.
- You should be a teacher or intending to work in the educational field.
- Evidence of knowledge and understanding of educational systems.
- Direct experience of working in education is not essential.

### CURRENT MODULES

#### Core modules

- Contemporary Issues in International Education
- Introduction to Education Research Methods
- Dissertation

**Option modules:** You will be able to choose one of three pathways so that you can specialise in the subject that interests you the most.

- Pathway 1: Leadership for Social Justice in Education
- Pathway 2: Pedagogy
- Pathway 3: Innovation and Reform

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent, with at least 6.0 in each component score

[www.le.ac.uk/int-education-ma](http://www.le.ac.uk/int-education-ma)

## INTERNATIONAL EDUCATION

**This is for you if...** you are a training or educational professional wanting to improve your understanding of contemporary educational issues in national and international settings.

### COURSE LEVEL

MA

### MODE OF STUDY

Off campus (distance learning)

### LENGTH OF COURSE

Two years part-time

### ENTRY REQUIREMENTS

2:2 or above in a relevant subject, or equivalent

### CURRENT MODULES

#### Core modules

- Contemporary Issues in International Education
- Introduction to Education Research Methods
- Dissertation

**Option modules:** You will be able to choose one of five pathways so that you can specialise in the subject that interests you the most. Each pathway includes two modules – the lead module and a specialist study module.

- Pathway 1: Leadership for Social Justice in Education
- Pathway 2: Pedagogy
- Pathway 3: Innovation and Reform
- Pathway 4: Inclusion and Special Education Needs
- Pathway 5: Learning Technologies

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent

[www.le.ac.uk/int-education-ma-dl](http://www.le.ac.uk/int-education-ma-dl)

## LEARNING TECHNOLOGIES

**This is for you if...** you work in education or training at any level, and you wish to develop your understanding of the latest developments in technology-enhanced learning and develop skills applicable to your current or future work.

### COURSE LEVEL

PG Cert

### MODE OF STUDY

Off campus (distance learning)

### LENGTH OF COURSE

Nine months part-time

### ENTRY REQUIREMENTS

2:2 degree in a relevant subject, or equivalent

### CURRENT MODULES

#### Part 1:

- **Technology Enhanced Learning**  
The first part of the course will give you a broad overview of technologies, their associated characteristics and the ways in which they can be used to foster different pedagogical approaches across different learning contexts.

#### Part 2:

- **Learning Design for the 21<sup>st</sup> Century**

The second part of the course introduces you to new learning design methodology, which guides practitioners in making informed, explicit choices about which technologies can support different forms of learning.

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent

## PRIMARY PGCE (SCHOOL DIRECT)

**This is for you if...** you have an undergraduate degree and you would like to train to teach 3-7 or 5-11 year-olds as part of the School Direct scheme.

### COURSE LEVEL

PGCE

### MODE OF STUDY

On campus and school placements

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

- 2:1 degree or above
- GCSE grade C or above in English language, maths and science
- Recent experience in a mainstream primary school in an appropriate age group
- A pass in the Professional Skills Tests in literacy and numeracy

### TAUGHT STRANDS

The PGCE Primary covers the following three taught strands:

- **Professional Studies**  
The professional strand of the PGCE course provides generic foundations for you as a future primary teacher. It will support your development as a skilful practitioner by helping you to understand and engage with the complex act of teaching.
- **Curriculum**  
PGCE Primary teaching sessions cover the full range of the Primary National Curriculum and the equivalent strands of the Early Years Foundation Stage Curriculum Guidance.
- **Academic Studies**  
An engagement with research is an important element of developing as a critically reflective classroom practitioner. The sessions in this strand will introduce you to a range of theoretical ideas about learning and teaching, and their implications for practice. As part of this strand you will choose to specialise in a particular area of interest.

### SCHOOL PLACEMENTS

On the School Direct route, your placements will be made within their group of schools but will ensure that you cover all phases of the age group you have applied to teach (3-7 or 5-11).

### ENGLISH LANGUAGE

GCSE Grade C in English Language.

[www.le.ac.uk/primary-school-direct-pgce](http://www.le.ac.uk/primary-school-direct-pgce)

## PGCE LOWER PRIMARY (3-7) OR PRIMARY (5-11) OR PRIMARY WITH MATHS (5-11) UNIVERSITY LED

**This is for you if...** you have an undergraduate degree and you want to train to become a primary school teacher by developing your understanding of pedagogy, whilst gaining experience in a variety of schools. You can choose which two Key Stages you will specialise in (FS/ KS1 or KS1 / KS2), or if you have a strength in mathematics, you may be eligible for the Primary with Maths route.

### COURSE LEVEL PGCE

### MODE OF STUDY

On campus and school placements

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

- 2:1 degree or above
- GCSE grade C or above in English language, maths and science
- Recent experience in a mainstream primary school in an appropriate age group
- A pass in the Professional Skills Tests in literacy and numeracy
- Enhanced mathematics qualifications for the Primary with Maths route

### TAUGHT STRANDS

The PGCE Primary covers the following three taught strands:

- **Professional Studies**  
The professional strand of the PGCE course provides generic foundations for you as a future Primary teacher. It will support your development as a skilful practitioner by helping you to understand and engage with the complex act of teaching.
- **Curriculum**  
PGCE Primary teaching sessions cover the full range of the Primary National Curriculum and the equivalent strands of the Early Years Foundation Stage Curriculum Guidance.
- **Academic Studies**  
An engagement with research is an important element of developing as a critically reflective classroom practitioner. The sessions in this strand will introduce you to a range of theoretical ideas about learning and teaching, and their implications for practice. As part of this strand you will choose to specialise in a particular area of interest. Primary with Mathematics students will study maths for this specialist area and will also attend some extra taught sessions throughout the year.

### SCHOOL PLACEMENTS

During the PGCE, you will be placed in three contrasting partnership schools. We are proud to work with over 200 primary schools in the state and independent sectors, and in city, suburban and rural settings, as well as special schools. Across these placements you will teach all phases of the age group you have applied to teach (3-7 or 5-11).

### ENGLISH LANGUAGE

GCSE Grade C in English Language.

[www.le.ac.uk/primary-pgce](http://www.le.ac.uk/primary-pgce)

## SECONDARY PGCE (SCHOOL DIRECT)

**This is for you if...** you have a degree and would like to train to teach 11-18 year-olds as part of the School Direct scheme.

### COURSE LEVEL

PGCE

### MODE OF STUDY

On campus and school placements

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

- Ideally 2:1 degree or above
- GCSE grade C or above in English language and science
- A levels (or equivalent) in relevant subjects
- Recent experience in a mainstream secondary school
- A pass in the Professional Skills Tests in literacy and numeracy

### PROFESSIONAL STUDIES PROGRAMME

The Professional Studies Programme runs throughout the PGCE year and will introduce you to a wide range of generic professional issues, including:

- Reflective Practice
- Career Development
- Professional Values
- Academic Skills Development

Depending on your School Direct partner, certain topics may be taught in school.

In addition to the compulsory programme, you will have the opportunity to choose from a wide range of optional sessions.

### SCHOOL PLACEMENTS

During the PGCE, you will be placed in two schools by your School Direct lead school. They will be within the group of partner schools within that School Direct cluster and are typically in the same geographical area.

### ENGLISH LANGUAGE

GCSE Grade C in English Language.

[www.le.ac.uk/secondary-school-direct-pgce](http://www.le.ac.uk/secondary-school-direct-pgce)

## PGCE SECONDARY

**This is for you if...** you have an undergraduate degree and would like to train to teach 11-18 year-olds.

### COURSE LEVEL

PGCE

### MODE OF STUDY

On campus and school placements

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

- Ideally 2:1 degree or above
- GCSE grade C or above in English language and science
- A levels (or equivalent) in relevant subjects
- Recent experience in a mainstream secondary school
- A pass in the Professional Skills Tests in literacy and numeracy

### PROFESSIONAL STUDIES PROGRAMME

The Professional Studies Programme runs throughout the PGCE year and will introduce you to a wide range of generic professional issues, including:

- Reflective Practice
- Career Development
- Professional Values
- Academic Skills Development

In addition to the compulsory programme, you will have the opportunity to choose from a wide range of optional sessions.

### SCHOOL PLACEMENTS

You will undertake two secondary teaching placements in our Partnership Schools. You will have the opportunity to work in diverse inner city and rural environments, with learners from a wide range of ethnic backgrounds. We try to place students in contrasting schools to ensure you have a rich and varied experience in your initial training year.

### ENGLISH LANGUAGE

GCSE Grade C in English Language.

[www.le.ac.uk/secondary-pgce](http://www.le.ac.uk/secondary-pgce)

# Engineering

Extend your knowledge in your chosen specialisation across aerospace, electrical, electronic, software, mechanical, materials and control engineering. With opportunities for paid industrial placements and accreditation from professional engineering institutions, our degrees are designed to prepare you for career success.

"The extensive range of courses and module choices allowed me to direct my studies towards a career that I enjoy and am passionate about. This also helped me secure a really enjoyable placement at Tata Steel Europe."

*Muhammad,  
MSc Advanced Electrical  
and Electronic Engineering*

## MASTER OF ENGINEERING MANAGEMENT

**This is for you if...** you are looking to add practical business and leadership skills to your existing technical knowledge for a management career in an engineering or technological organisation.

**COURSE LEVEL**  
MEM

**MODE OF STUDY**  
On campus

**LENGTH OF COURSE**  
One to two years full-time

**ENTRY REQUIREMENTS**  
Good second-class honours degree (or equivalent) in a relevant subject.

**CURRENT MODULES**

- Systems Engineering
- Accounting and Finance for Managers
- Business Economics
- Engineering Project Management
- International Business
- Lean Engineering
- Cost Engineering
- Engineering Business Management
- Research Project/Dissertation

**ENGLISH LANGUAGE**  
IELTS 6.0 or equivalent

[www.le.ac.uk/master-eng-mgt-mem](http://www.le.ac.uk/master-eng-mgt-mem)

## ADVANCED ELECTRICAL AND ELECTRONIC ENGINEERING WITH MANAGEMENT

**This is for you if...** you wish to specialise in electrical disciplines in combination with a rigorous introduction to those management theories, models, frameworks and techniques that are likely to be important to a professional engineer.

**COURSE LEVEL**  
MSc

**MODE OF STUDY**  
On campus

**LENGTH OF COURSE**  
One to two years full-time or part-time

**ENTRY REQUIREMENTS**  
Good second-class honours degree (or equivalent) in a relevant subject.

**CURRENT MODULES**

- MATLAB and CAD
- Accounting and Finance for Managers
- Business Economics
- International Business
- Electrical Machines and Drives
- High-Reliability Embedded Systems
- Modelling and Classification of Data
- Robust Control
- Research Project/Dissertation

**INDUSTRY PLACEMENT**  
Experience real-world scenarios and apply your engineering skills and knowledge to business challenges. An industry placement will not only showcase your abilities to future employers, but will also enhance your studies when you return to university to complete your programme.

**ENGLISH LANGUAGE**  
IELTS 6.0 or equivalent

[www.le.ac.uk/adv-eleceng-mgt-msc](http://www.le.ac.uk/adv-eleceng-mgt-msc)

## ADVANCED ELECTRICAL AND ELECTRONIC ENGINEERING

**This is for you if...** you are looking to choose from a variety electrical and electronic engineering specialisms to study at an advanced level, with modules and topics ranging from communications, signal processing, embedded systems, electrical machines and drives, to MATLAB and CAD programming.

**COURSE LEVEL**  
MSc

**MODE OF STUDY**  
On campus

**LENGTH OF COURSE**  
One to two years full-time or part-time

**ENTRY REQUIREMENTS**  
Good second-class honours degree (or equivalent) in a relevant subject.

**CURRENT MODULES**

- MATLAB and CAD
- Modelling and Classification of Data
- High-Reliability Embedded Systems
- Robust Control
- Electrical Machines and Drives
- Radio Systems
- Systems Engineering and Spacecraft Systems
- Research Project

**INDUSTRY PLACEMENT**  
Experience real-world scenarios and apply your engineering skills and knowledge to business challenges. An industry placement will not only showcase your abilities to future employers, but will also enhance your studies when you return to university to complete your programme.

**ACCREDITATION**  
This course is accredited by the Institution of Engineering and Technology (IET).

Accreditation also available from the Institution of Measurement and Control (InstMC), subject to the completion of certain modules.

**ENGLISH LANGUAGE**  
IELTS 6.0 or equivalent

[www.le.ac.uk/adv-eleceng-msc](http://www.le.ac.uk/adv-eleceng-msc)

## ADVANCED MECHANICAL ENGINEERING WITH MANAGEMENT

**This is for you if...** you are looking to obtain the advanced engineering skills and knowledge of management theory and practice required to secure leadership roles in global engineering industries.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One to two years full-time

### ENTRY REQUIREMENTS

Good second-class honours degree (or equivalent) in a relevant subject.

### CURRENT MODULES

- MATLAB and CAD
- Accounting and Finance for Managers
- Business Economics
- International Business
- Advanced Fluid Dynamics
- Advanced Solid Mechanics
- Understanding Surfaces in Engineering
- Modelling and Classification of Data
- Robust Control
- Research Project/Dissertation

### INDUSTRY PLACEMENT

Experience real-world scenarios and apply your engineering skills and knowledge to business challenges. An industry placement will not only showcase your abilities to future employers, but will also enhance your studies when you return to university to complete your programme.

### ENGLISH LANGUAGE

IELTS 6.0 or equivalent

[www.le.ac.uk/adv-mecheng-mgt-msc](http://www.le.ac.uk/adv-mecheng-mgt-msc)

## ADVANCED MECHANICAL ENGINEERING

**This is for you if...** you are looking to learn about the state-of-the-art methodologies and techniques relevant to current and future strategies for the design of mechanical systems and components.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One to two years full-time or part-time

### ENTRY REQUIREMENTS

Good second-class honours degree (or equivalent) in a relevant subject.

### CURRENT MODULES

- MATLAB and CAD
- Advanced Fluid Dynamics
- Advanced Solid Mechanics
- Understanding Surfaces in Engineering
- Modelling and Classification of Data
- Robust Control
- Systems Engineering and Spacecraft Systems
- Current Trends in Aerospace
- Research Project/Dissertation

### INDUSTRY PLACEMENT

Experience real-world scenarios and apply your engineering skills and knowledge to business challenges. An industry placement will not only showcase your abilities to future employers, but will also enhance your studies when you return to university to complete your programme.

### ACCREDITATION

This course is accredited by the Institution of Engineering and Technology (IET), and by the Institution of Mechanical Engineers (IMechE).

### ENGLISH LANGUAGE

IELTS 6.0 or equivalent

[www.le.ac.uk/adv-mecheng-msc](http://www.le.ac.uk/adv-mecheng-msc)

## EMBEDDED SYSTEMS AND CONTROL ENGINEERING

**This is for you if...** you are looking to obtain the knowledge and skills required of a professional engineer designing embedded systems for use in control, diagnostics, monitoring and communications.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One to two years full-time or part-time

### ENTRY REQUIREMENTS

Good second-class honours degree (or equivalent) in a relevant subject.

### CURRENT MODULES

- MATLAB and CAD
- High-Reliability Embedded Systems
- Robust Control
- Design of Discrete Systems
- Real-Time Signal Processing
- Embedded Systems for Condition Monitoring and Control
- Nonlinear Control
- Research Project/Dissertation

### INDUSTRY PLACEMENT

Experience real-world scenarios and apply your engineering skills and knowledge to business challenges. An industry placement will not only showcase your abilities to future employers, but will also enhance your studies when you return to university to complete your programme.

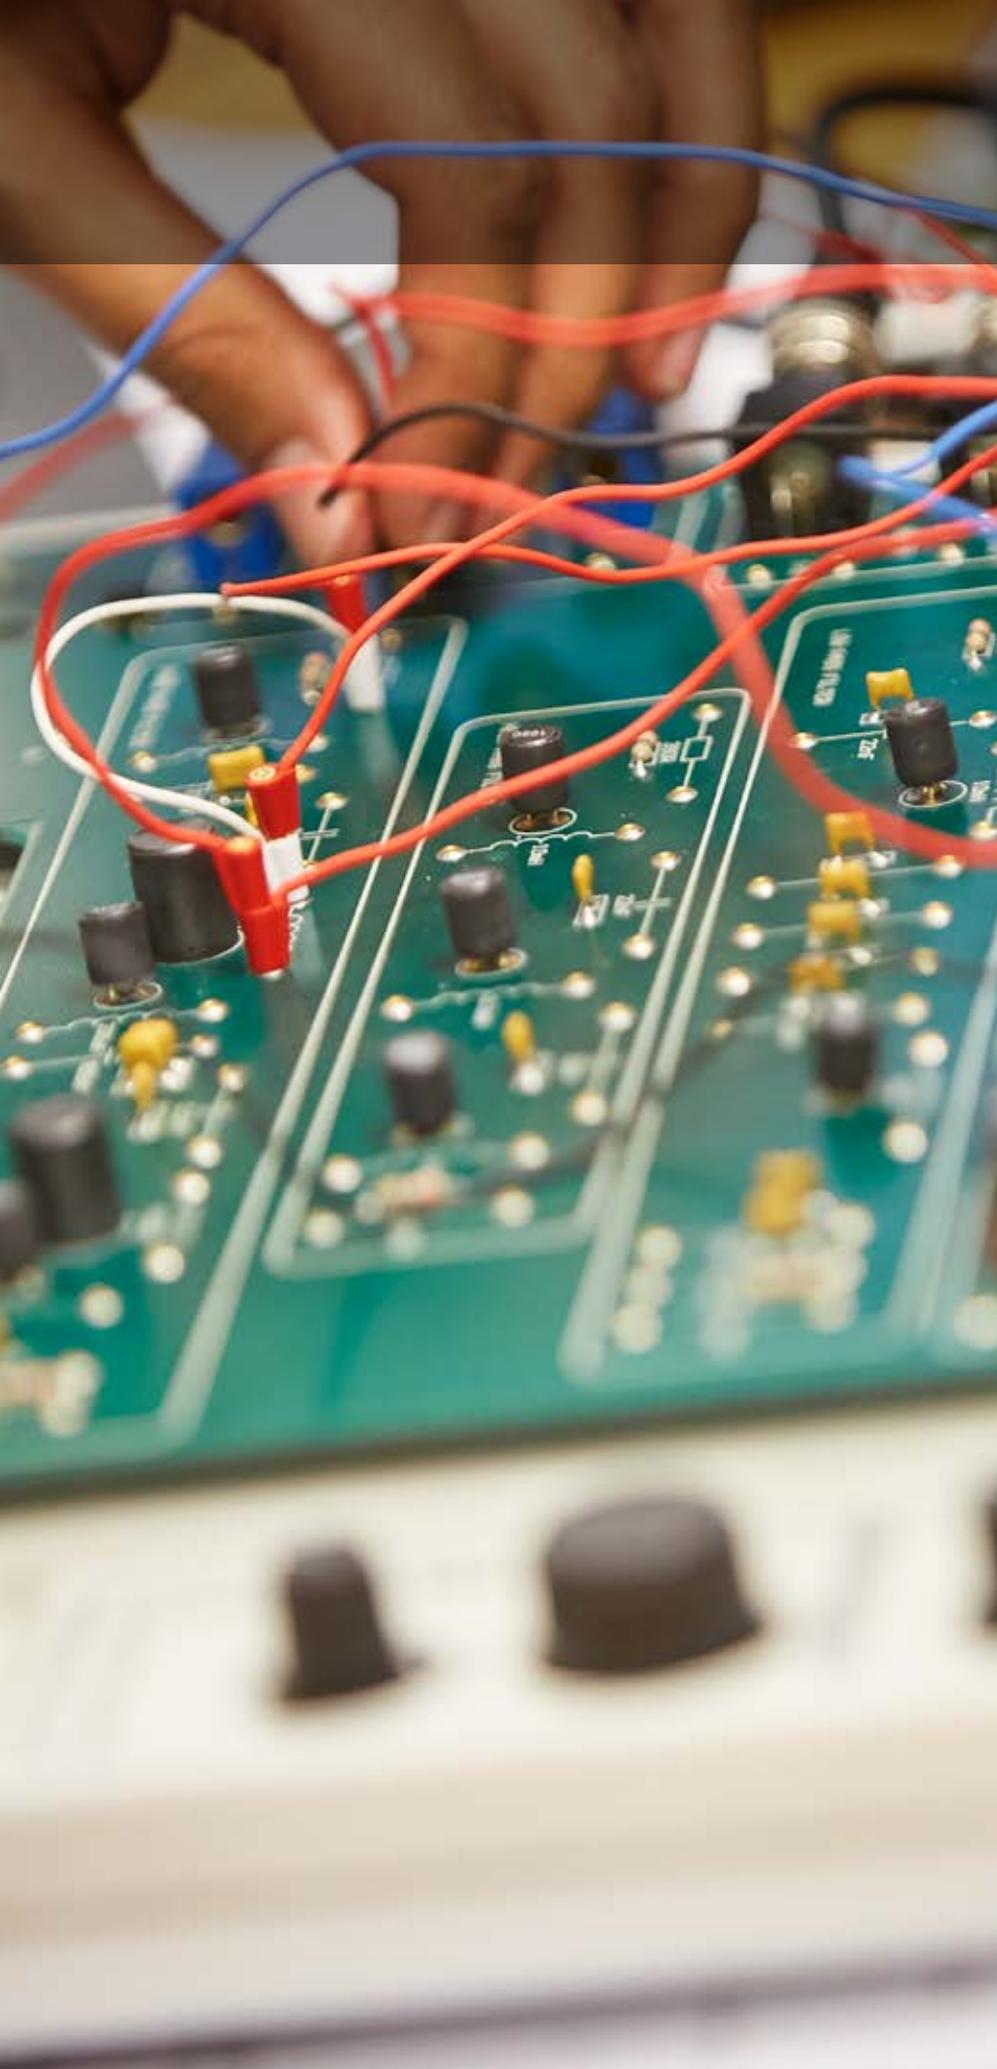

### ACCREDITATION

This course is accredited by the Institution of Engineering and Technology (IET), and by the Institute of Measurement and Control (InstMC).

### ENGLISH LANGUAGE

IELTS 6.0 or equivalent

# English

"As well as encouraging me to embrace my ideas and have confidence in my writing, the course has improved and strengthened my academic voice. The tutors in the English department are passionate about the subjects that they teach, which always makes our seminars engaging, entertaining and enjoyable."

*Reem, MA Modern Literature and Creative Writing*

Explore areas across a wide range of genres and topics, spanning literature to linguistics, and English language teaching to creative writing. Develop transferable skills in research, analysis and communication, and specialise in aspects of literary studies that suit your interests and career choices.

### **APPLIED LINGUISTICS AND TESOL (TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES)**

**This is for you if...** you wish to further develop your academic and professional expertise in the field of English Language teaching practice.

#### **COURSE LEVEL**

MA

#### **MODE OF STUDY**

On campus or Off campus (distance learning)

#### **LENGTH OF COURSE**

One year full-time or two years part-time for on campus. Two and a half years for off campus.

#### **ENTRY REQUIREMENTS**

2:2 degree or above in a related area. You should normally be a teacher or working in the English Language Teaching field with two years' full-time teaching experience. You may also be able to apply for Accredited Prior Learning (APL).

#### **CURRENT MODULES**

##### **Core modules**

- Grammar Awareness
- Language in Society
- Phonology and Pronunciation
- Second Language Teaching
- Second Language Learning
- Discourse Analysis (core module for off campus route only, optional module for campus-based route)
- Dissertation

#### **Option modules**

##### **(On campus route)**

- Continuing Professional Development for English Language Teachers
- Language Testing and Assessment II
- Psychological Issues in Language Learning
- Corpus Linguistics and Language Learning/Teaching
- Discourse Analysis
- Language Testing and Assessment I
- Materials Design and Development
- Technology Enhanced Language Learning

##### **Option modules**

##### **(Off campus route)**

- Intercultural Communication
- Language Testing and Assessment
- Materials Design and Development
- Course and Syllabus Design
- Technology Enhanced Language Learning (TELL)
- Teacher Education
- Management in ELT
- English for Specific Purposes
- Young Learners and ELT
- Critical Discourse Perspectives

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent

### COURSE OPPORTUNITIES

You will benefit from having excellent archival material relevant to the period housed in the Library's Special Collections, as well as learning about cutting-edge interdisciplinary research, digital and textual editing from international experts in their field.

### CAREER SECTORS

PhD study; teaching; publishing; journalism; heritage industry.

[www.le.ac.uk/victorian-ma](http://www.le.ac.uk/victorian-ma)

# Geography

Our research is changing our world for the better. Learn from experts who are improving society, saving lives and protecting our environment. With professional accreditation and opportunities for paid industrial placements, we're equipping you with the skills needed to compete in an increasingly competitive market.

## **GEOGRAPHICAL INFORMATION SCIENCE (GIS)**

**This is for you if...** you want a thorough grounding in the theory and practice of both Geographical Information Systems (the software tools) and Geographical Information Science (the technical discipline).

### **COURSE LEVEL**

MSc

### **MODE OF STUDY**

On campus

### **LENGTH OF COURSE**

One year full-time

18-24 months for Year in Industry

### **ENTRY REQUIREMENTS**

2:2 degree (or equivalent) in a relevant subject and or several years' appropriate professional experience.

2:1 required for the 'with Industry' degree.

### **CURRENT MODULES**

- Introduction to GIS
- Earth Observation and Remote Sensing
- Programming in R
- GIS Research Methods in the Field
- Spatial Information Science
- Geographical Visualisation
- Dissertation

### **YEAR IN INDUSTRY**

**(FULL-TIME STUDENTS ONLY)**

This course is available with an optional (usually paid) industry placement. If you take a 'with Industry' degree, your qualification will be 'MSc in Geographical Information Science with Industry'.

The course fees are higher for the 'with Industry' degree. Please see the website for further information.

### **ACCREDITATION**

This degree is accredited by the Royal Institution of Chartered Surveyors (RICS).

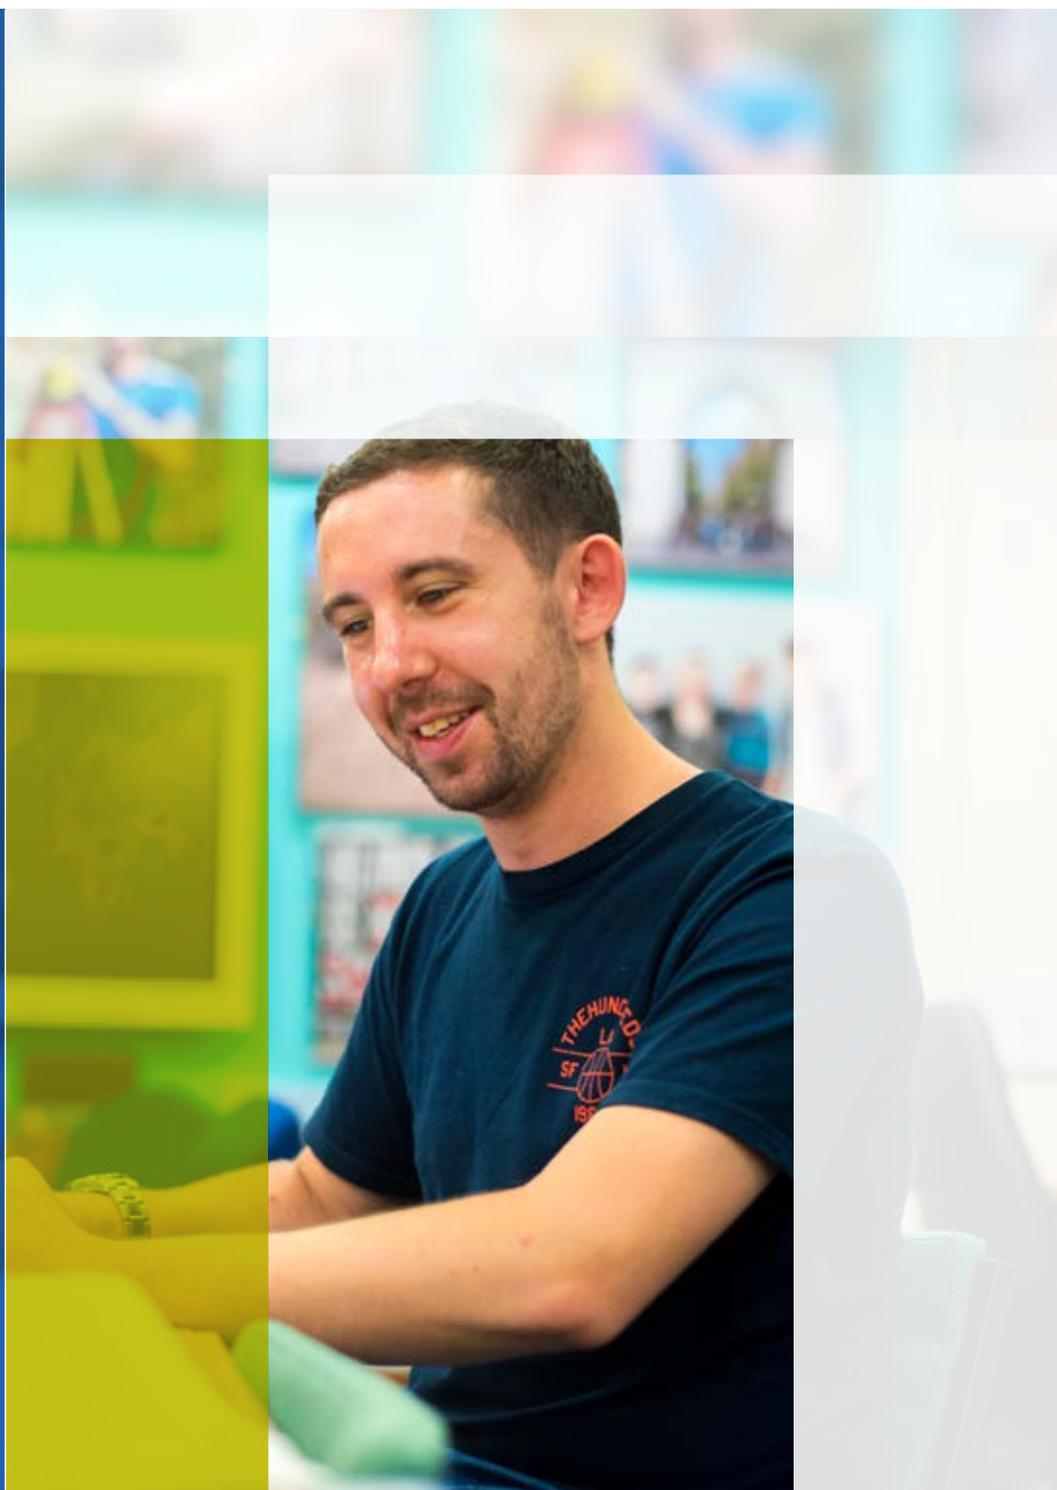

### **ENGLISH LANGUAGE**

IELTS 6.5 or equivalent, with at least 6.0 in each component score.

[www.le.ac.uk/gis-msc](http://www.le.ac.uk/gis-msc)

"My experience at Leicester has been fantastically underpinned by knowledgeable and supportive staff. The breadth of the course made my time thoroughly enjoyable, with a great atmosphere throughout the University. Leicester has proven to be the perfect environment to enhance my academic career."

*Seb*

# Health Sciences

“Studying at the University of Leicester’s very prestigious Centre of Diabetes has been really enjoyable. There is a real community and the staff and students have made me really feel at home.”

*Muhammad, MSc Diabetes*

We are home to top health science research with established strengths across epidemiology, medical statistics, public health, health services and psychiatry. Learn from academics who are forging new ideas and technologies to secure people's health and well-being, and get everything you need to achieve progression in your healthcare career.

### APPLIED HEALTH RESEARCH

**This is for you if...** you want to study and practise applied health research at an advanced level.

#### COURSE LEVEL

MRes, PG Cert

#### MODE OF STUDY

On campus

#### LENGTH OF COURSE

One year full-time or two years part-time

#### ENTRY REQUIREMENTS

Relevant 2:1 degree or equivalent professional experience.

#### CURRENT MODULES

##### Core modules

- Fundamentals of Applied Health Research
- Quantitative Methods in Applied Health Research
- Qualitative Methods in Applied Health Research

*These modules are also available as stand-alone CPD courses.*

- Dissertation

#### Option modules

- Patient Safety
- Human Factors and Ergonomics for Patient Safety
- Measuring and Monitoring in Healthcare
- Leading, Managing and Organising Quality and Safety in Healthcare

*These modules are also available as stand-alone CPD courses.*

#### ENGLISH LANGUAGE

IELTS 7.0 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

#### CAREER SECTORS

For many graduates, our MRes has been a gateway to a research-based career or a means of advancing their career in health or social care using the transferable skills they have obtained. Others have found that the MRes is an excellent foundation for doctoral research and an academic career.

[www.le.ac.uk/app-health-mres](http://www.le.ac.uk/app-health-mres)

## DIABETES

**This is for you if...** you want to increase your knowledge, expertise and confidence in diabetes care to improve outcomes for people with diabetes, and progress your personal career.

The Leicester Diabetes Centre (LDC) is one of the largest facilities in Europe for conducting clinical research and teaching in diabetes. In 2018, the International Diabetes Federation (IDF) awarded LDC the titles of 'IDF Centre of Education' and 'IDF Centre of Excellence in Diabetes Care'.

### COURSE LEVEL

MSc, PG Dip, PG Cert

### MODE OF STUDY

Off campus (distance learning)

### LENGTH OF COURSE

Two years part-time

### ENTRY REQUIREMENTS

The course is open to professionals with relevant first degrees or professional qualifications, and with significant clinical experience in the field of diabetes.

Accredited Prior Learning (APL): You may be able to transfer credits of APL from another course. This will be considered on an individual basis by the course director and in accordance with the University and programme regulations.

### CURRENT MODULES

#### Core modules

- Clinical Presentation and Management of Diabetes: Glycaemic Control, New & Novel Therapies
- Clinical Presentation and Management in Diabetes: Complications and Cardiovascular Disease
- Foundation Research (MSc only)
- Dissertation (MSc only)

#### Option modules

- Prevention, Screening and Early Detection in Diabetes
- Self-management and Lifestyle Behaviour Change
- Prevention, Obesity and Diabetes
- Children and Young People with Diabetes
- Adult Inpatient
- Advanced Injectable Therapies

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

### CAREER SECTORS

Diabetes is affecting people across the world in epidemic proportions. It is, therefore, an area that requires more and more experts in this field. Studying on our Diabetes programmes will allow you to develop knowledge of diabetes care whilst obtaining transferable academic skills. Successful students will have the skills to specialise in diabetes, which may lead to career progression.

[www.le.ac.uk/diabetes-msc-dl](http://www.le.ac.uk/diabetes-msc-dl)

## DIABETES

## MEDICAL STATISTICS

**This is for you if...** you want a vocational course that will focus on the application of statistical methods to real-life problems in medicine and healthcare. You will have the opportunity to develop core and cutting-edge knowledge and the transferable skills that will give you excellent prospects in securing a career in medical statistics or further study.

**COURSE LEVEL** MSc

**MODE OF STUDY** On campus

**LENGTH OF COURSE**

One year full-time or three years part-time

**ENTRY REQUIREMENTS**

The course is intended mainly for students with a good honours degree of which mathematics/statistics is the main subject, and with a working knowledge of basic probability and statistics. However, applicants with other suitable backgrounds will be considered by the course team. If you wish to discuss your background, please contact the Admissions Tutor at [mcsmedstats@le.ac.uk](mailto:mcsmedstats@le.ac.uk).

**CURRENT MODULES**

### Core modules

- Fundamentals of Medical Statistics
- Statistical Modelling
- Computationally Intensive Methods
- Advanced Statistical Modelling
- Clinical Trials
- Epidemiology
- Statistical Computing and Inference
- Research Project

### Option modules

- Further Topics in Medical Statistics
- Genetic Epidemiology
- Health Technology Assessment

*Through your choice of core and optional modules, you will be able to opt to specialise in Genetic Epidemiology or Health Technology Assessment.*

**ENGLISH LANGUAGE** IELTS 6.5 or equivalent

**ACCREDITATION**

This course is accredited by the Royal Statistical Society. On graduation you will be able to apply for the professional award of Graduate Statistician.

**CAREER SECTORS**

The demand for medical statisticians is high and many employers in universities and the pharmaceutical industry contact us with job opportunities and to give careers talks to try to recruit graduates.

**STUDENTSHIPS**

For 2018 entry this degree has been awarded:

- Four National Institute for Health Research (NIHR) Masters studentships in medical statistics
- Three Medical Research Council (MRC) studentships funded through the Integrated Midlands Partnership for Biomedical Training (IMPACT).

Studentships will be allocated through interview, and eligibility criteria apply. Contact [mcsmedstats@le.ac.uk](mailto:mcsmedstats@le.ac.uk) for further details.

[www.le.ac.uk/med-stats-msc](http://www.le.ac.uk/med-stats-msc)

## QUALITY AND SAFETY IN HEALTHCARE

**This is for you if...** you want to improve your knowledge of the theory and practice of improving quality and safety in healthcare, at an institution renowned for its world-leading research in this area.

**COURSE LEVEL**

MSc, PG Dip, PG Cert

**MODE OF STUDY**

On campus

**LENGTH OF COURSE**

One year full-time or two years part-time

**ENTRY REQUIREMENTS**

A good undergraduate degree (2:1) in a related field of study.

Or an equivalent professional qualification or substantial equivalent experience in a relevant field.

**CURRENT MODULES**

- Quality and Quality Improvement in Healthcare
- Patient Safety
- Human Factors and Ergonomics for Patient Safety
- Measuring and Monitoring in Healthcare
- Leading, Managing and Organising Quality and Safety in Healthcare
- Quantitative Research
- Qualitative Research
- Dissertation

*Individual modules are also available as stand-alone CPD courses.*

**ENGLISH LANGUAGE**

IELTS 7.0 (or equivalent) with a minimum score of 6.5 in each element.

**CAREER SECTORS**

This course is designed to help you in your existing work where that involves ensuring and promoting quality and safety in healthcare. It can also contribute to your career development by offering skills that are in acknowledged shortage in the health service, and which align with nationally-recognised NHS criteria for promotion and job profiling.

[www.le.ac.uk/quality-safety-msc](http://www.le.ac.uk/quality-safety-msc)

# History

“My course has enabled me to study a wide range of core topics whilst also specialising in my favoured area. I feel that I have a more in-depth and rounded knowledge – the skills that I have gained have put me in a good position for a diverse range of careers.”

*Emily, MA History*

Explore the events that have shaped our world globally and locally. Learn how to think critically and piece together information from the past and apply it to current events and issues. Develop the skills that can lead to success in a wide range of careers.

### ENGLISH LOCAL HISTORY AND FAMILY HISTORY

**This is for you if...** you are fascinated by regional identities, society and landscape, and contextualising family history, and you wish to learn historical research techniques.

#### COURSE LEVEL

# Informatics

"My course has really broadened my knowledge of computer science and technologies. I was able to successfully apply the skills and techniques taught in the course during my placement year"

*Martin, MSc Advanced Software Engineering*

The world of business would be nothing without information technology. In an ever-changing, increasingly connected world, our flexible degrees are designed to stimulate your creativity and imagination. Develop your professional skills and enhance your career prospects in this fast-moving field with our optional paid industrial placements.

### ADVANCED COMPUTER SCIENCE

**This is for you if...** you want develop an advanced understanding of the nature and impact of current challenges faced by the IT industry, and build an awareness of the methodologies and technologies available within computer science to address them.

#### COURSE LEVEL

MSc, PG Dip

#### MODE OF STUDY

On campus or Off campus (distance learning)

#### LENGTH OF COURSE

One to two years full-time or part-time

#### ENTRY REQUIREMENTS

2:1 degree (or equivalent) in a relevant subject with a substantial element of Computing. Relevant work experience may also be considered.

#### CURRENT MODULES

##### Core modules

- Personal and Group Skills
- Individual Research Project (OC/DL)

##### Option modules

- Advanced C++ Programming
- Advanced System Design
- System Re-engineering (OC/DL)
- Software Reliability
- Advanced Web Technologies (OC/DL)
- Agile Cloud Automation (OC/DL)
- Internet and Cloud Computing
- Communication and Concurrency
- Software Measurement and Quality Assurance (OC/DL)
- Web Technologies
- Financial Mathematics I
- Operational Research
- Algorithms for Bioinformatics
- Generative Development (OC/DL)

- Discrete Event Systems
- Game Theory in Computer Science
- Service-Oriented Architectures (OC/DL)
- Semantic Web (OC/DL)
- Financial Services Information Systems
- Analysis and Design of Algorithms
- Distributed Systems and Applications
- Compression Methods for Multimedia
- Cryptography and Internet Security
- Business Information Systems (DL only)

*(OC/DL) = Module for both on campus and off campus (distance learning) courses*

*(DL only) = Module only available for off campus (distance learning) course*

#### ENGLISH LANGUAGE

## ADVANCED COMPUTATIONAL METHODS

**This is for you if...** you want to study advanced topics and cutting-edge technologies to understand how algorithms can be used across different programmes and applied to different sectors.

### COURSE LEVEL

MSc, PG Dip

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One to two years full-time

### ENTRY REQUIREMENTS

2:1 degree (or equivalent) in a relevant subject with a substantial element of Computing. Relevant work experience may also be considered.

### CURRENT MODULES

#### Core modules

- Advanced C++ Programming
- Internet and Cloud Computing
- Personal and Group Skills
- Algorithms for Bioinformatics
- Discrete Event Systems
- Game Theory in Computer Science
- Individual Research Project

#### Option modules

- Advanced System Design
- Advanced Web Technologies
- Agile Cloud Automation
- Communication and Concurrency
- Financial Mathematics I
- Operational Research
- Software Reliability
- Software Measurement and Quality Assurance
- System Re-engineering
- Web Technologies
- Service-Oriented Architectures
- Semantic Web
- Financial Services Information Systems
- Generative Development
- Analysis and Design of Algorithms
- Distributed Systems and Applications
- Compression Methods for Multimedia
- Cryptography and Internet Security

### ENGLISH LANGUAGE

IELTS 6.0 or equivalent

[www.le.ac.uk/adv-compmethods-msc](http://www.le.ac.uk/adv-compmethods-msc)

## ADVANCED SOFTWARE ENGINEERING

**This is for you if...** you want to understand the methodologies and technologies that address the challenges companies are facing in the volatile markets. You will explore the need to offer integrated, on demand services, and discover how to evolve legacy systems and implement new business processes to drive efficiency.

### COURSE LEVEL

MSc, PG Dip

### MODE OF STUDY

On campus or Off campus (distance learning)

### LENGTH OF COURSE

One to two years full-time or part-time

### ENTRY REQUIREMENTS

2:1 degree (or equivalent) in a relevant subject with a substantial element of Computing. Relevant work experience may also be considered.

### CURRENT MODULES

#### Core modules

- Advanced System Design
- Personal and Group Skills
- Software Measurement and Quality Assurance (OC/DL)
- System Re-engineering (OC/DL)
- Generative Development (OC/DL)
- Service-Oriented Architectures (OC/DL)
- Individual Research Project (OC/DL)

#### Option modules

- Advanced C++ Programming
- Advanced Web Technologies (OC/DL)
- Agile Cloud Automation (OC/DL)
- Communication and Concurrency
- Financial Mathematics I
- Internet and Cloud Computing
- Operational Research
- Software Reliability
- Web Technologies
- Algorithms for Bioinformatics
- Discrete Event Systems
- Game Theory in Computer Science
- Semantic Web (OC/DL)
- Financial Services Information Systems
- Analysis and Design of Algorithms
- Distributed Systems and Applications
- Compression Methods for Multimedia
- Cryptography and Internet Security
- Business Information Systems (DL only)

*(OC/DL) = Module for both on campus and off campus (distance learning) courses*

*(DL only) = Module only available for off campus (distance learning) course*

## AGILE SOFTWARE ENGINEERING TECHNIQUES

**This is for you if...** you want to develop an advanced knowledge of the methods and techniques required to develop complex engineering software in a very short time frame to market. Our modules are based on the Eclipse framework, ensuring knowledge is framed within a practical context.

### COURSE LEVEL

MSc, PG Dip

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One to two years full-time

### ENTRY REQUIREMENTS

2:1 degree (or equivalent) in a relevant subject with a substantial element of Computing. Relevant work experience may also be considered.

### CURRENT MODULES

#### Core modules

- Agile Cloud Automation
- Personal and Group Skills
- System Re-engineering
- Generative Development
- Service-Oriented Architectures
- Individual Research Project

#### Option modules

- Advanced C++ Programming
- Advanced System Design
- Advanced Web Technologies
- Communication and Concurrency
- Financial Mathematics I
- Internet and Cloud Computing
- Operational Research
- Software Measurement and Quality Assurance
- Web Technologies
- Algorithms for Bioinformatics
- Discrete Event Systems

## CLOUD COMPUTING

**This is for you if...** you want to expand your knowledge of designing, analysing and engineering cloud computing systems for handling big data in a distributed environment based on dynamically scalable architectures.

### COURSE LEVEL

MSc, PG Dip

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One to two years full-time

### ENTRY REQUIREMENTS

2:1 degree (or equivalent) in a relevant subject with a substantial element of Computing. Relevant work experience may also be considered.

### CURRENT MODULES

#### Core modules

- Advanced Web Technologies
- Internet and Cloud Computing
- Personal and Group Skills
- Service-Oriented Architectures
- Individual Research Project

#### Option modules

- Advanced C++ Programming
- Advanced System Design
- Agile Cloud Automation
- Communication and Concurrency
- Software Measurement and Quality Assurance
- Software Reliability
- System Re-engineering
- Web Technologies
- Analysis and Design of Algorithms
- Distributed Systems and Applications

## HUMAN TECHNOLOGY INTERACTION

**This is for you if...** you are fascinated by the ethical, health and wellbeing implications of the rapid advancement of technology. This topical field is rapidly growing in importance with the increasing demands on highly usable self-learning and self-care IT, which aligns with the notion of subjective wellbeing (SWB) driven design approaches.

### COURSE LEVEL

MSc, PG Dip

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One to two years full-time

### ENTRY REQUIREMENTS

2:1 degree (or equivalent) in a relevant subject with a substantial element of Computing. Relevant work experience may also be considered.

### CURRENT MODULES

#### Core modules

- Interaction Design (ID) and User Experience (UX)
- Mobile and Ubiquitous Computing
- Research Methods and Theories in HCI
- Research Trends in HCI
- Personal and Group Skills
- Service Design
- Individual Research Project

#### Option modules

- Advanced Web Technologies
- Computational Intelligence and Software Engineering
- Internet and Cloud Computing
- Software Measurements and Quality Assurance
- Big Data and Predictive Analytics
- Service-Oriented Architectures

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent

[www.le.ac.uk/](http://www.le.ac.uk/)

[human-tech-interaction-msc](http://www.le.ac.uk/human-tech-interaction-msc)

## SOFTWARE ENGINEERING FOR FINANCIAL SERVICES

**This is for you if...** you want to develop a deeper understanding of the software technologies that financial institutions require to 'embrace the challenge of change' and also the business context and organisational structures that IT systems need to support in doing so.

### COURSE LEVEL

MSc, PG Dip

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One to two years full-time

### ENTRY REQUIREMENTS

2:1 degree (or equivalent) in a relevant subject with a substantial element of Computing. Relevant work experience may also be considered.

### CURRENT MODULES

#### Core modules

- Foundations of Financial Analysis and Investment
- System Re-engineering
- Personal and Group Skills
- Service-Oriented Architectures
- Financial Services Information Systems
- Individual Research Project

#### Option modules

- Advanced C++ Programming
- Advanced System Design
- Advanced Web Technologies
- Agile Cloud Automation
- Internet and Cloud Computing
- Software Measurement and Quality Assurance
- Game Theory in Computer Science
- Corporate Finance
- International Money and Finance
- Cryptography and Internet Security
- Principles of Banking
- Generative Development

### ENGLISH LANGUAGE

IELTS 6.0 or equivalent

[www.le.ac.uk/soft-eng-finance-msc](http://www.le.ac.uk/soft-eng-finance-msc)

## WEB APPLICATIONS AND SERVICES

**This is for you if...** you want to understand the emerging trends of web applications amidst the emergence of new and improving technologies. The introduction of Web 2.0 is enabling delivery of specialised software applications that can be distributed in a collaborative setting, and this course will give you the practical skills and contemporary knowledge to understand and respond to new and emerging challenges in this field.

**COURSE LEVEL** MSc, PG Dip

### MODE OF STUDY

On campus or Off campus (distance learning)

### LENGTH OF COURSE

One to two years full-time or part-time

### ENTRY REQUIREMENTS

2:1 degree (or equivalent) in a relevant subject with a substantial element of Computing. Relevant work experience may also be considered.

### CURRENT MODULES

#### Core modules

- Advanced System Design
- Advanced Web Technologies (OC/DL)
- Personal and Group Skills
- Semantic Web (OC/DL)
- Service-Oriented Architectures (OC/DL)
- Individual Research Project (OC/DL)

#### Option modules

- Advanced C++ Programming
- Agile Cloud Automation (OC/DL)
- Communication and Concurrency
- Financial Mathematics I
- Internet and Cloud Computing
- Operational Research
- Software Measurement and Quality Assurance (OC/DL)

# Law

Our LLM degrees provide advanced, specialised legal training to take your career to the next level. At Leicester Law School, we have academic expertise across the legal spectrum so you can get the latest insights and apply this knowledge to your practice. Be part of a vibrant learning environment that values ideas, excellence and intellectual exchange.

## LLM IN LAW (GENERAL)

This stream of the LLM in Law allows you the flexibility to customise your LLM across an extensive range of specialist subjects without limiting you to a specific area. It is ideal for those graduating in law or social sciences looking to boost their career prospects within a flexible, dynamic and supportive environment.

### COURSE LEVEL

LLM

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time or two years part-time

### ENTRY REQUIREMENTS

2:2 degree (or equivalent) in Law or a related subject

### CURRENT MODULES

- Civil Dispute Resolution Methods
- Freedom of Expression
- International Commercial Arbitration
- Legal Responses to Global Injustice
- The State, the Law and Religious Freedoms

### ENGLISH LANGUAGE

6.5 IELTS or equivalent

[www.le.ac.uk/law-llm](http://www.le.ac.uk/law-llm)

## LLM IN LAW (INTERNATIONAL HUMAN RIGHTS)

This stream of the LLM will allow you to specialise in human rights at both national and international level. It covers a variety of issues related to the theory and practice of human rights.

### COURSE LEVEL

LLM

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time or two years part-time

### ENTRY REQUIREMENTS

2:2 degree (or equivalent) in Law or a related subject

### CURRENT MODULES

- Brexit: the Future of the UK in Europe
- Human Rights and Wrongs: Core Principles
- Legal Responses to Global Injustice
- The European Convention on Human Rights
- The Politics of Human Rights
- The State, the Law and Religious Freedoms

### ENGLISH LANGUAGE

6.5 IELTS or equivalent

[www.le.ac.uk/int-humrights-llm](http://www.le.ac.uk/int-humrights-llm)

“Leicester Law School is a place where you really grow. The lecturers are friendly and approachable, and the modules are diverse, interesting and engaging.”

*Elizabeth,  
LLM International  
Commercial Law*

#### **LLM IN LAW (INTERNATIONAL COMMERCIAL LAW)**

This stream of the LLM will equip you with the advanced legal skills and knowledge needed for a successful career in the complex and rapidly changing field of international commercial law.

##### **COURSE LEVEL**

LLM

##### **MODE OF STUDY**

On campus

##### **LENGTH OF COURSE**

One year full-time or two years part-time

##### **ENTRY REQUIREMENTS**

2:2 degree (or equivalent) in Law or a related subject

##### **CURRENT MODULES**

- Civil Dispute Resolution Methods
- Comparative Corporate Law
- Contracts for Carriage of Goods
- International Banking Law
- International Commercial Arbitration
- International Sales Transactions

##### **ENGLISH LANGUAGE**

6.5 IELTS or equivalent

[www.le.ac.uk/int-commercial-llm](http://www.le.ac.uk/int-commercial-llm)

#### **LLM IN LAW (INTERNATIONAL LAW)**

This stream of the LLM will broaden your knowledge of public, international and human rights law across international boundaries and is ideal for those wanting to work in governmental or non-governmental organisations.

##### **COURSE LEVEL**

LLM

##### **MODE OF STUDY**

On campus

##### **LENGTH OF COURSE**

One year full-time or two years part-time

##### **ENTRY REQUIREMENTS**

2:2 degree (or equivalent) in Law or a related subject

##### **CURRENT MODULES**

- Freedom of Expression
- Human Rights and Wrongs: Core Principles
- International Commercial Arbitration
- Law and Organisation of the World Trading System
- The State, the Law and Religious Freedoms
- Transitional Justice and International Criminal Law

##### **ENGLISH LANGUAGE**

6.5 IELTS or equivalent

[www.le.ac.uk/international-llm](http://www.le.ac.uk/international-llm)

#### **LLM IN LAW (PUBLIC INTERNATIONAL LAW)**

This stream of the LLM is for you if you would like the opportunity to study a broad range of topics both within and beyond public international law and are interested in a career in this increasingly prominent field.

##### **COURSE LEVEL**

LLM

##### **MODE OF STUDY**

On campus

##### **LENGTH OF COURSE**

One year full-time or two years part-time

##### **ENTRY REQUIREMENTS**

2:2 degree (or equivalent) in Law or a related subject

##### **CURRENT MODULES**

- Freedom of Expression
- General Principles of International Law
- International Commercial Arbitration
- Law of Armed Conflict
- The European Convention on Human Rights

##### **ENGLISH LANGUAGE**

6.5 IELTS or equivalent

[www.le.ac.uk/public-int-llm](http://www.le.ac.uk/public-int-llm)

# Mathematics

"The course is so interesting because it combines mathematical theories and their application to many real-world projects."

*Mira, Actuarial Science (on campus)*

In the global marketplace, employers are looking for logical thinking and analytical skills. Our courses will develop your skills and deepen your understanding of applied mathematics. With a focus on vocational content and flexible learning routes, you will study in a way that benefits you and your career.

### ACTUARIAL SCIENCE (ON CAMPUS)

**This is for you if...** you want to study actuarial science at an advanced level.

#### COURSE LEVEL

MSc

#### MODE OF STUDY

On campus

#### LENGTH OF COURSE

One year full-time

#### ENTRY REQUIREMENTS

2:1 honours degree (or equivalent) in a relevant subject – usually Mathematics (or Actuarial Science), Statistics, Finance, Engineering, Physics or Computer Science. In general, it is expected that you have a solid background in mathematics (calculus, linear algebra, ordinary differential equations, basics of probability and statistics). Applications are treated on an individual basis – therefore, alternative qualifications, including work experience, may be considered to compensate for a lower than required degree class.

#### CURRENT MODULES

*The modules on this course correlate with the eight-part Core Technical (CT) syllabus of the Institute and Faculty of Actuaries, as indicated. For exemption from all the IFoA exams, you should take all the CT modules.*

- Theory of Interest (CT1)
- Statistics (CT3)
- Models (CT4a)
- Mortality (CT4b)
- Finance and Financial Reporting (CT2)
- Further Statistics (CT6a)
- Applied Statistics (CT6b)
- Contingencies (CT5)

AND EITHER

- Business Economics (CT7)
- Business Awareness and Critical Thinking

OR

- Actuarial Science Research Project

#### Option modules

- Financial Mathematics (CT8a)
- Financial Engineering (CT8b)

#### ENGLISH LANGUAGE

IELTS 6.0 or equivalent

[www.le.ac.uk/actuarial-sci-msc](http://www.le.ac.uk/actuarial-sci-msc)

### ACTUARIAL SCIENCE (OFF CAMPUS DISTANCE LEARNING)

**This is for you if...** if you want to study actuarial science at an advanced level from home.

#### COURSE LEVEL

MSc, PG Dip

#### MODE OF STUDY

Off campus (distance learning)

#### LENGTH OF COURSE

Two to three years part-time

#### ENTRY REQUIREMENTS

Identical to on campus course. Please see to the left.

#### CURRENT MODULES

*Modules on this course correlate with the eight-part Core Technical (CT) syllabus of the Institute and Faculty of Actuaries, as indicated.*

- Financial Mathematics (CT1)
- Finance and Financial Reporting (CT2)
- Statistics (CT3)
- Models and Mortality (CT4)
- Contingencies (CT5)
- Statistical Methods (CT6)
- Business Economics (CT7)
- Financial Economics (CT8)
- Dissertation (MSc only)

#### ENGLISH LANGUAGE

IELTS 6.0 or equivalent

[www.le.ac.uk/actuarial-sci-msc-dl](http://www.le.ac.uk/actuarial-sci-msc-dl)

## APPLIED COMPUTATION AND NUMERICAL MODELLING

**This is for you if...** you want to study computation and numerical modelling at an advanced level.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

At least a 2:2 degree (or international equivalent) in Maths, Physics or Engineering.

### CURRENT MODULES

#### Core modules

- Practical Programming
- Scientific Computing
- Individual Project

EITHER

- Computational Partial Differential Equations with Applications

OR

- Computational Partial Differential Equations with Finite Elements

#### Option modules

- Mathematical Modelling
- Equations in Mathematical Physics
- Methods in Mathematical Physics
- Advanced Fluid Dynamics
- Advanced Solid Mechanics
- Operations Research
- Data Mining and Neural Networks
- Topics in Mathematical Biology
- Applications in Theoretical Physics
- Computational Fluid Dynamics
- Dynamics of Mechanical Systems
- Design of Discrete Systems
- Real-Time Signal Processing
- Particle Methods in Scientific Computing Mathematical Modelling

### ENGLISH LANGUAGE

IELTS 6.0 or equivalent

[www.le.ac.uk/comp-numerical-msc](http://www.le.ac.uk/comp-numerical-msc)

## DATA ANALYSIS FOR BUSINESS INTELLIGENCE

**This is for you if...** you want to gain practical experience in databases and a rigorous understanding of applied statistics, data mining, operational research and related areas.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

2:2 degree in Maths or related subject (eg. Physics) or equivalent international qualification. If your background is in computer science, we will assess your student transcript.

### CURRENT MODULES

#### Core modules

- Internet and Cloud Computing
- Statistics
- Mathematical Modelling
- Data Mining and Neural Networks
- Financial Services Information Systems
- Analysis and Design of Algorithms
- Research Project

#### Option modules

- Advanced C++ Programming
- Practical Programming
- Computational Methods for Partial Differential Equations
- Applied Statistics
- Further Statistics
- Game Theory
- ESports Analytics

You will also have the opportunity to sit two optional IT certification exams:

- SAS for Data Analysis (with external certification: 'SAS Base Programmer for SAS 9')
- SQL (with external certification: 'The Microsoft Certified Solutions Associate (MCSA): SQL Server 2012')

### ENGLISH LANGUAGE

IELTS 6.0 or equivalent

[www.le.ac.uk/data-business-intel-msc](http://www.le.ac.uk/data-business-intel-msc)

## FINANCIAL MATHEMATICS AND COMPUTATION

**This is for you if...** you want to study financial mathematics at an advanced level.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

2:1 degree (or equivalent) in Maths, Sciences, or Engineering. We will consider a 2:1 degree in a social science (e.g. Economics) on an individual basis.

### CURRENT MODULES

#### Core modules

- Financial Mathematics 1 and 2
- Scientific Computing
- Computational Methods for Partial Differential Equations
- Financial Risk
- Research Project

EITHER

- Advanced C++ Programming

OR

- Practical Programming

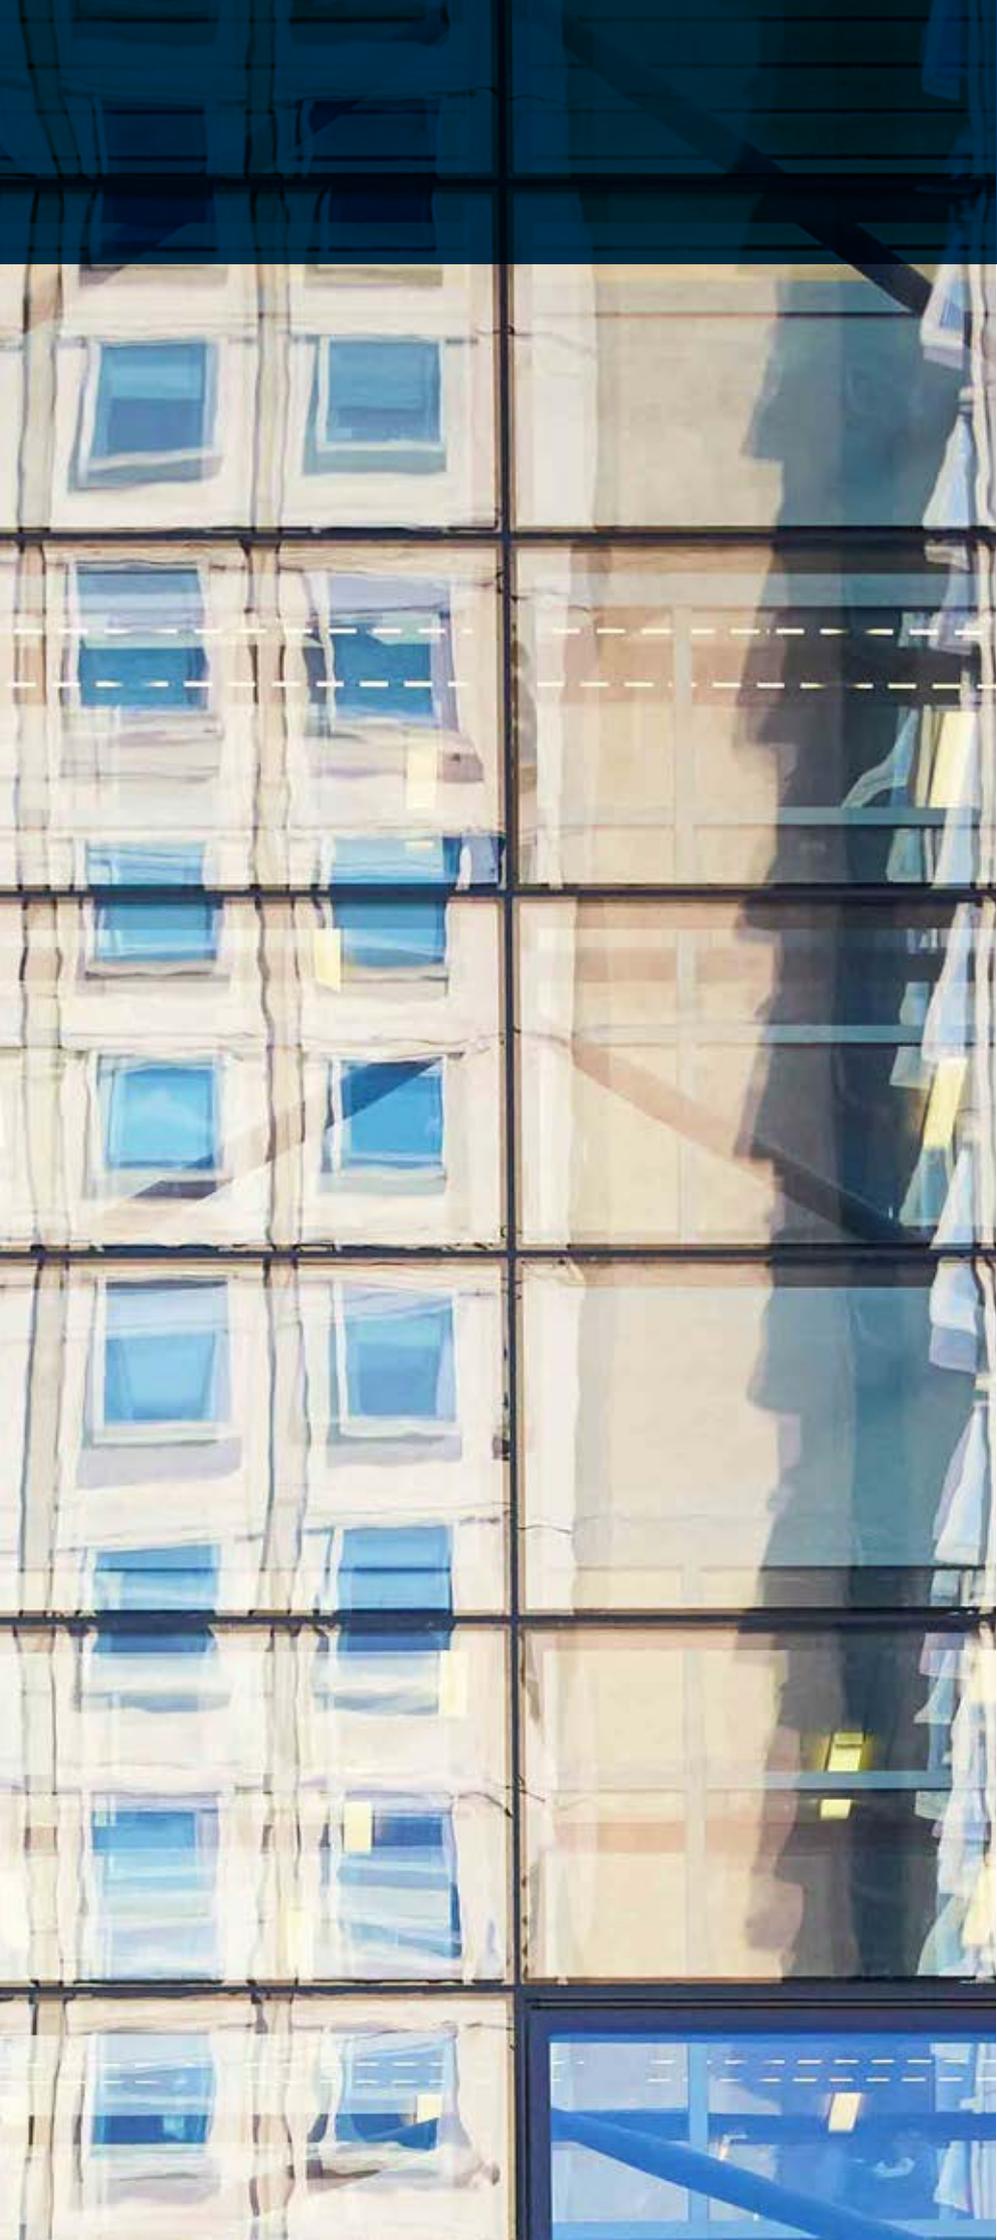

#### Option modules

- Models
- Mortality
- Statistics
- Operations Research
- Generalised Linear Models
- Foundations of Financial Analysis and Investment
- Data Mining and Neural Networks
- Further Statistics
- Theory of Finance
- International Money and Finance
- Financial Market Microstructure and Trading
- Financial Risk Management

### ENGLISH LANGUAGE

IELTS 6.0 or equivalent

[www.le.ac.uk/financial-maths-computation-msc](http://www.le.ac.uk/financial-maths-computation-msc)

## **MATHEMATICS**

**This is for you if...** you want to study on one of our postgraduate Mathematics degrees but need a boost in your maths skills first.

### **COURSE LEVEL**

Pre-Masters Diploma

### **MODE OF STUDY**

On campus

### **LENGTH OF COURSE**

One year full-time

### **ENTRY REQUIREMENTS**

Good second-class honours degree (or equivalent) in a mathematical or finance-related subject such as Economics, Engineering, Physics, Finance or Computer Science. If your degree did not include plenty of maths, you will need maths A-level too.

### **CURRENT MODULES**

The exact structure of your Diploma course will depend on which of our Master's degrees you are aiming at. You will study areas such as

- Probability
- Calculus
- Statistics
- Differential equations
- Linear algebra
- Programming skills
- Specialist mathematical software

### **ENGLISH LANGUAGE**

IELTS 6.0 or equivalent

[www.le.ac.uk/pre-maths-dip](http://www.le.ac.uk/pre-maths-dip)

# Media and Communication

Media and communication is truly dynamic and far-reaching – it has real sociological, psychological, ethical and technological implications. Our courses draw strongly on specialist expertise and thinking, fostering industry-ready graduates able to meet the needs of this fast-paced, ever changing field.

## GLOBAL MEDIA AND COMMUNICATION

**This is for you if...** you want to understand the relationship between the processes of globalisation and communications, and how they shape our world.

### COURSE LEVEL MA

**MODE OF STUDY** On campus

**LENGTH OF COURSE** One year full-time

### ENTRY REQUIREMENTS

2:1 degree or equivalent professional qualification.

We can give special consideration to applicants who have significant work experience in a relevant field.

### CURRENT MODULES

#### Core modules

- Global Communications and Development
- Theories of Globalisation and New Media
- Media Research Methods
- Research Design and Communication
- Dissertation

#### Option modules

- Global Affairs: Actors, Communication and Culture
- Technology and Social Change: Global Perspectives
- Critical Approaches to Consumer Culture
- International Political Communication
- Digital Media in Everyday Life
- Chinese Media in a Global Context
- Globalisation of Sexuality: Culture and Media
- Digital Journalism
- Journalism and Culture
- Journalism and Citizenship
- Critical Approaches to Celebrity Culture
- The Cultural Industries: Theory, Policy and Practice
- Studying Film
- Media Solidarities and Human Rights
- Making the Web

### ENGLISH LANGUAGE

6.5 IELTS or equivalent

[www.le.ac.uk/global-mediacomms-ma](http://www.le.ac.uk/global-mediacomms-ma)

## MEDIA, GENDER, AND SOCIAL JUSTICE

**This is for you if...** you are passionate about the power of media and communication for challenging inequalities in social institutions, and want to learn to use them to effect change in the world.

### COURSE LEVEL MA

**MODE OF STUDY** On campus

**LENGTH OF COURSE** One year full-time

### ENTRY REQUIREMENTS

2:1 degree or equivalent professional qualification. We will recognise a range of relevant experiences from both volunteering and work within grassroots, public, private, or NGO sectors related to social justice internationally.

### CURRENT MODULES

#### Core modules

- Challenges in Media, Gender, and Social Justice
- Media Research Methods
- Social Justice in Practice
- Extended Report (Action Research)

OR

- Dissertation

#### Option modules

- The Politics of Human Rights
- Human Rights, Ethics and Intervention in Action
- Power, Crime and Criminal Justice
- Domestic and Sexual Violence
- Hate, Extremism and 'Everyday' Prejudice
- Regulation of Sex Work
- Corporate Governance
- Global Affairs: Actors, Communication and Culture
- Technology and Social Change: Global Perspectives
- International Political Communication
- Globalisation of Sexuality: Culture and Media

- The Politics of Digital Media
- Gender Politics in Contemporary Media
- Media Solidarities and Human Rights
- Making the Web
- Race and Ethnicity
- International Migration
- New Communication Technologies, Social Media and Digital Politics
- Directed Study

### ENGLISH LANGUAGE

6.5 IELTS or equivalent

### CAREER SECTORS

Students in this programme will be equipped with the theoretical, methodological, and practical skills required to work in charitable, community, NGO, grassroots, and non-profit organisations seeking expertise in media and communication strategies for enacting social justice-oriented direct action.

[www.le.ac.uk/med-gender-soc-just-ma](http://www.le.ac.uk/med-gender-soc-just-ma)

## MASS COMMUNICATIONS

**This is for you if...** you want to gain a deeper understanding of the theoretical and methodological approaches to the rapidly changing field of media and communication research.

### COURSE LEVEL

MA

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

2:1 degree or equivalent professional qualification. We can give special consideration to applicants who have significant work experience in a relevant field.

### CURRENT MODULES

#### Core modules

- Contemporary Issues in Media and Cultural Studies
- Mass Communication Theory
- Media and Communication Research Methods 1
- Media and Communication Research Methods 2
- Media Audiences and Users
- Dissertation

#### Option modules

- Global Affairs: Actors, Communication and Culture
- Technology and Social Change: Global Perspectives
- Critical Approaches to Consumer Culture
- International Political Communication
- Digital Media in Everyday Life
- Chinese Media in a Global Context
- Globalisation of Sexuality: Culture and Media
- Digital Journalism
- Journalism and Culture
- Journalism and Citizenship
- Critical Approaches to Celebrity Culture
- The Cultural Industries: Theory, Policy and Practice
- Studying Film
- Media Solidarities and Human Rights
- Making the Web

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent

[www.le.ac.uk/masscomms-ma](http://www.le.ac.uk/masscomms-ma)

## MEDIA AND PUBLIC RELATIONS

**This is for you if...** you want to gain a critical understanding of the practices and outcomes of public relations within the context of rapidly changing media environments.

### COURSE LEVEL

MA

### MODE OF STUDY

On campus or Off campus (distance learning)

### LENGTH OF COURSE

One year full-time or two years part-time

### ENTRY REQUIREMENTS

2:1 degree in a related subject or equivalent professional qualification. We can give special consideration to applicants who have significant work experience in a relevant field.

### CURRENT MODULES

#### On campus route

- Public Relations, Culture and Society
- PR, Journalism and Networked Media
- Media Research Methods
- Strategic Communications Management
- Promotional Cultures
- Global Affairs: Actors, Communication and Culture
- Technology and Social Change: Global Perspectives
- Critical Approaches to Consumer Culture
- International Political Communication
- Digital Media in Everyday Life
- Chinese Media in a Global Context
- Globalisation of Sexuality: Culture and Media
- Digital Journalism
- Journalism and Culture
- Journalism and Citizenship
- Critical Approaches to Celebrity Culture
- Protest and Publics in the Network Society
- The Cultural Industries: Theory, Policy and Practice
- Studying Film
- Media Solidarities and Human Rights
- Making the Web
- Dissertation

#### Off campus route

- Issues in Media and Communication
- Public Relations and Society
- Strategic Communications Management
- Media Research Design and Practice
- Dissertation

### ACCREDITATION

The University of Leicester is a partner of the UK Public Relations and Communications Association (PRCA). Students on this course enjoy free membership of the PRCA, unlimited free access to PRCA online training courses, free access the PRCA Online Certificate, access to a range of networking events, and the opportunity to arrange internships.

### ENGLISH LANGUAGE

## **MEDIA AND ADVERTISING**

**This is for you if...** you want to explore advertising in its complexity and in a global perspective, as a cultural phenomenon that plays a crucial role in contemporary society.

### **COURSE LEVEL**

MA

### **MODE OF STUDY**

On campus

### **LENGTH OF COURSE**

One year full-time

### **ENTRY REQUIREMENTS**

2:1 degree in a related subject or equivalent professional qualification. We can give special consideration to applicants who have significant work experience in a relevant field.

### **CURRENT MODULES**

#### **Core modules**

- Introduction to Advertising and Media
- Principles and Practice of Marketing
- Consumer Behaviour
- Promotional Cultures
- Advertising Research Methods
- Dissertation

#### **Option modules**

- Global Affairs: Actors, Communication and Culture
- Technology and Social Change: Global Perspectives
- International Political Communication
- Digital Media in Everyday Life
- Chinese Media in a Global Context
- Critical Approaches to Celebrity Culture
- The Culture Industries: Theory, Policy and Practice
- Advertising Strategy and Creativity

### **ENGLISH LANGUAGE**

IELTS 6.5 or equivalent

## **MEDIA, CULTURE AND SOCIETY**

**This is for you if...** you are interested in studying media, communication and sociology at an advanced level, and learning from some of the leading researchers in this academic field.

### **COURSE LEVEL**

MA

### **MODE OF STUDY**

On campus

### **LENGTH OF COURSE**

One year full-time

### **ENTRY REQUIREMENTS**

2:1 degree from a British university in a related subject and equivalent academic or professional qualification. We can give special consideration to applicants who have significant work experience in a relevant field.

### **CURRENT MODULES**

#### **Core modules**

- Contemporary Issues in Media Cultural Studies
- Real World Research
- Social and Cultural Theory
- Dissertation

#### **Option modules**

- Media Solidarities and Human Rights
- New Communication Technologies, Social Media and Digital Politics
- Studying Film
- Technology, Culture and Communication
- The Cultural Industries: Theory, Policy and Practice
- Critical Approaches to Consumer Culture
- Critical Approaches to Celebrity Culture

### **ENGLISH LANGUAGE**

IELTS 6.5 or equivalent

[www.le.ac.uk/media-culture-soc-ma](http://www.le.ac.uk/media-culture-soc-ma)

## **NEW MEDIA AND SOCIETY**

**This is for you if...** you want to understand the impact new media and technologies are having on society, and develop a range of research skills relevant for analysing new media trends and phenomena.

### **COURSE LEVEL**

MA

### **MODE OF STUDY**

On campus

### **LENGTH OF COURSE**

One year full-time

### **ENTRY REQUIREMENTS**

2:1 degree or equivalent professional qualification. We can give special consideration to applicants who have significant work experience in a relevant field.

### **CURRENT MODULES**

#### **Core modules**

- The Politics of Digital Media
- The Sociology of New Media
- Media Research Methods
- New Media, Online Persuasion and Behavioural Change
- Research Methods for the Online World
- Dissertation

#### **Option modules**

- Global Affairs: Actors, Communication and Culture
- Technology and Social Change: Global Perspectives
- Critical Approaches to Consumer Culture
- International Political Communication
- Digital Media in Everyday Life
- Chinese Media in a Global Context
- Globalisation of Sexuality: Culture and Media
- Digital Journalism
- Critical Approaches to Celebrity Culture
- The Cultural Industries: Theory, Policy and Practice
- Studying Film
- Media Solidarities and Human Rights
- Making the Web

### **ENGLISH LANGUAGE**

IELTS 6.5 or equivalent

[www.le.ac.uk/newmedia-soc-ma](http://www.le.ac.uk/newmedia-soc-ma)

# Modern Languages

Language skills and cultural fluency are hugely important in our society. Our postgraduate translation course gives you the opportunity to deepen your understanding of your chosen language, and develop the professional and practical skills needed for a career in translation.

## **TRANSLATION STUDIES**

**This is for you if...** you want to develop your practical translation skills and your theoretical knowledge of the subject, in preparation to enter the profession or to embark on further academic study.

### **COURSE LEVEL**

MA, PG Dip

### **MODE OF STUDY**

On campus

### **LENGTH OF COURSE**

One year full-time or two years part-time

### **ENTRY REQUIREMENTS**

2:1 degree or above. You must also be a native or have near-native ability in English and at least one other language.

### **CURRENT MODULES**

#### **Core modules**

- The Development of Translation Studies
- Research Skills and Methods in Translation Studies
- Current Issues in Translation Research and Practice
- Dissertation

#### **Option modules**

- Interpreting
- Translating Different Genres
- Translation Strategies
- Technical Translation
- Computer Assisted Translation Tools
- Audio Visual Translation
- Extended Translation Project

### **ENGLISH LANGUAGE**

IELTS 6.5 or equivalent

[www.le.ac.uk/translation-ma](http://www.le.ac.uk/translation-ma)

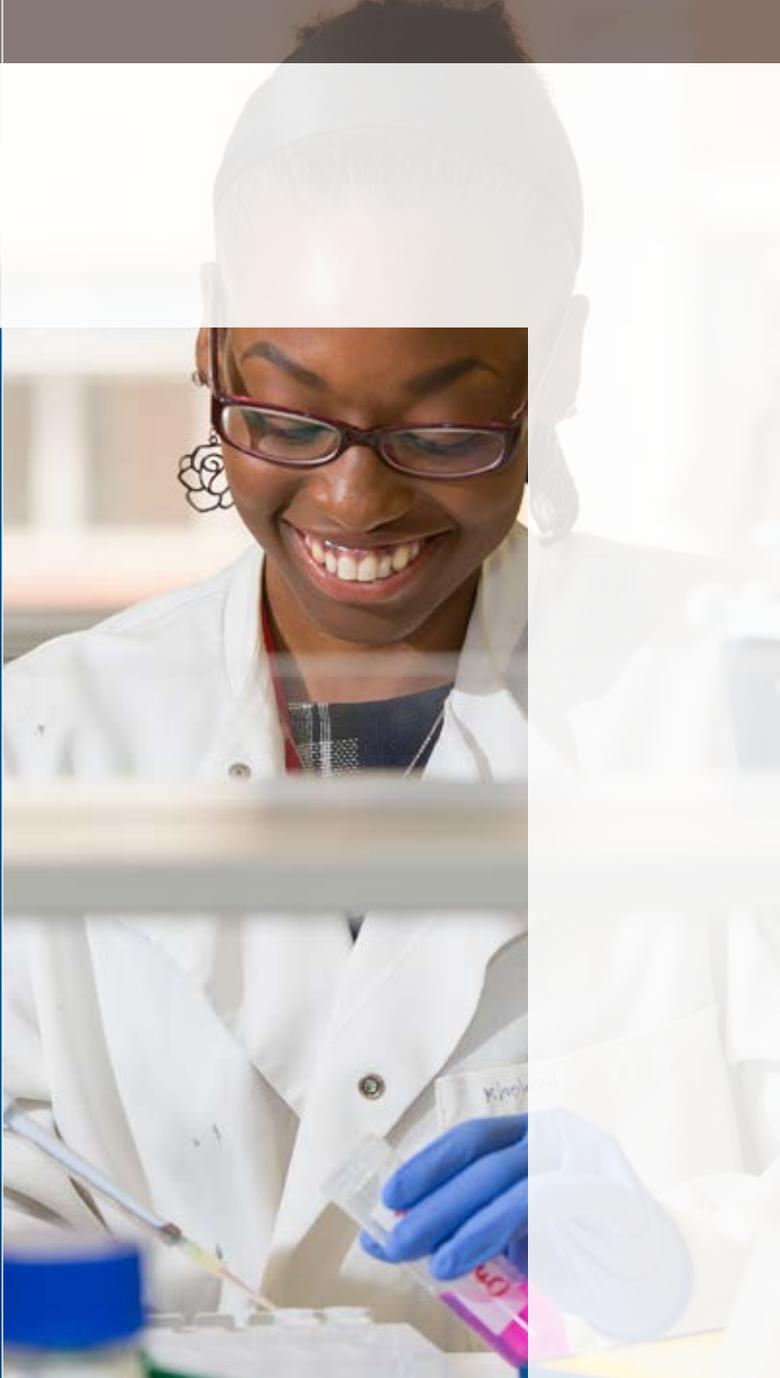

"From studying the history of translation from the age of Cicero, to current issues at the cutting-edge of translation studies, I have gained a comprehensive theoretical knowledge, which I've been able to implement into my own translation practice."

*Bethany, MA Translation Studies*

# Molecular and Medical Biosciences

We have a global reputation for excellence in Molecular and Medical Biosciences. Learn from academics who are breaking new ground on some of the world's most urgent health priorities. Your studies will help develop the skills you need to move into a wide range of careers in the sciences or to take on further research.

"The level of support provided by the lecturers throughout the course is excellent. I can happily say that I have acquired the experience and knowledge to continue on to my next challenge in cancer research."

*Taniqua, MSc Molecular Pathology and Therapeutics of Cancer*

## BIOINFORMATICS AND MOLECULAR GENETICS

**This is for you if...** you are fascinated by molecular biology and computing, and want to study a combination of bioinformatics and molecular genetics at an advanced level.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

2.2 degree (or equivalent) in a biological or biomedical science.

Your interest in computing and bioinformatics will be assessed in an interview.

### CURRENT MODULES

- Introduction to Techniques in Molecular Genetics and Data Analysis
- Experimental Design and Application of Molecular Techniques to Research
- Java and Databases for Bioinformatics
- Algorithms for Bioinformatics
- Genes and Genome Analysis
- Proteins: Structure and Bioinformatics
- Bioinformatics Programming and Advanced Topics in Bioinformatics
- Bioinformatics Research Project – undertaking a research project is an integral part of the course and allows you to apply your bioinformatics training to a research question.

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent, with 6.0 in writing.

If your first language is not English, you may need to provide evidence of your English language ability.

### CAREER SECTORS

An explosion in biological data has resulted from genome projects, high throughput sequencing, and other 'omics' techniques. Molecular genetics provides you with a sound grounding to put such data into context, while bioinformatics provides the tools to analyse and exploit such data sets. The research training you receive will provide skills that PhD supervisors and employers value highly.

[www.le.ac.uk/bioinformatics-molecgen-msc](http://www.le.ac.uk/bioinformatics-molecgen-msc)

## BIOINFORMATICS

**This is for you if...** you want to study bioinformatics at an advanced level.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

2:2 degree (or equivalent) in Biological Sciences or related discipline. We will also consider appropriate experience in industry.

### CURRENT MODULES

- Bioinformatics Programming and Advanced Topics in Bioinformatics
- Algorithms for Bioinformatics
- Genes and Genome Analysis
- Proteins: Structure and Bioinformatics
- Steered Research Project
- Independent Research Project – a four-month project placement in industry, a research institute, or a University of Leicester research lab. Your research project will involve working alongside an expert who will guide you through a research topic related to his/her research interests. Undertaking a long research project is an integral part of the course and prepares graduates for employment and PhD programmes.

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent, with 6.0 in writing.

If your first language is not English, you may need to provide evidence of your English language ability.

### CAREER SECTORS

Bioinformatics is a major growth area and qualified bioinformaticians are in high demand. An explosion in biological data has resulted from genome projects, next generation sequencing, and other 'omics' techniques. Bioinformatics provides the tools to analyse and exploit such data sets.

The research training you receive and the research project you conduct will provide skills that PhD supervisors and employers value highly.

[www.le.ac.uk/bioinformatics-msc](http://www.le.ac.uk/bioinformatics-msc)

## CANCER CELL AND MOLECULAR BIOLOGY

**This is for you if...** you want to study the molecular and cell biology of cancer to an advanced level and develop a career in biological research.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

2:2 degree (or equivalent) in Biological Sciences or related subject. We will also consider appropriate experience in industry.

### CURRENT MODULES

- Introduction to Molecular Techniques
- Research Methods in Cell Biology
- Research Methods in Cancer Biology
- Advanced Topics in Cancer Biology
- You will also undertake a long research project working alongside an expert who will guide you through a research topic related to his/her research interests. These long projects can either be based at the University or one of the nearby hospitals, where you will work alongside professional laboratory scientists. Undertaking a long research project is an integral part of the course and prepares graduates for employment and PhD programmes.

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

### CAREER SECTORS

The research training you receive and the research project you conduct will provide you with skills that PhD supervisors and employers value highly.

[www.le.ac.uk/cancer-molecular-msc](http://www.le.ac.uk/cancer-molecular-msc)

## CHRONIC DISEASE AND IMMUNITY

**This is for you if...** you want to apply your knowledge of biological sciences to studying the molecular and cellular basis of chronic degenerative diseases, particularly if you want to pursue research at postgraduate level.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

2:2 degree in a biological science (e.g. Biochemistry, Biomedical Sciences or Immunology).

**Or** a BTEC with experience in a field related to chronic disease and immunity, such as a health service or biopharmaceutical laboratory.

**Or** a medical or veterinary degree, provided that the course included significant elements of molecular biology and immunology.

### CURRENT MODULES

- Core Theory and Practical Techniques in Chronic Disease and Inflammation
- Immunity and Inflammation
- Advanced Topics in Inflammation and Disease Progression
- You will also undertake a long research project working alongside an expert who will guide you through a research topic related to his/her research interests. These long projects can either be based at the University or one of the nearby hospitals, where you will work alongside professional laboratory scientists. Undertaking a long research project is an integral part of the course and prepares graduates for employment and PhD programmes.

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

### CAREER SECTORS

The research training you receive and the research project you conduct will provide a training that PhD supervisors and employers value highly.

[www.le.ac.uk/disease-immunity-msc](http://www.le.ac.uk/disease-immunity-msc)

## INFECTION AND IMMUNITY

**This is for you if...** you want to apply your knowledge of biological sciences to studying the molecular and cellular basis of infections and the immune response, particularly if you want to pursue research at postgraduate level.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

2:2 degree in a biological science (e.g. Biochemistry, Biomedical Sciences, Microbiology or Immunology).

**Or** a BTEC with experience in a field related to infection and immunity, such as a health service or biopharmaceutical laboratory.

**Or** a medical or veterinary degree, provided that the course included significant elements of molecular biology, microbiology and immunology.

### CURRENT MODULES

- Core Theory and Practical Techniques in Infection and Immunity
- Infection and Immunity
- Advanced Topics in Infection and Immunity (a more specialist, interactive module)
- You will also undertake a long research project working alongside an expert who will guide you through a research topic related to his/her research interests. These long projects can either be based at the University or one of the nearby hospitals, where you will work alongside professional laboratory scientists. Undertaking a long research project is an integral part of the course and prepares graduates for employment and PhD programmes.

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

### CAREER SECTORS

The research training you receive and the research project you conduct will provide a training that PhD supervisors and employers value highly.

[www.le.ac.uk/infection-immunity-msc](http://www.le.ac.uk/infection-immunity-msc)

# Molecular and Medical Biosciences

## MOLECULAR GENETICS

**This is for you if...** you want to study molecular genetics at an advanced level.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

2:2 degree (or equivalent) in a biological science.

Significant relevant work experience may be considered.

### CURRENT MODULES

The taught part of the degree is based on eight, week-long experiments that you undertake in a fully equipped laboratory dedicated to the Molecular Genetics MSc. Throughout the experiments, you will perform sophisticated molecular analyses with expert guidance from academic staff who will make you think critically about the design and analysis of the experiments.

This part of the course is organised in two large modules, which also include lectures and tutorials:

- Introduction to Techniques in Molecular Genetics and Data Analysis
- Experimental Design and Application of Molecular Techniques to Research

You will also undertake a long research project working alongside an expert who will guide you through a research topic related to his/her research interests. These long projects can either be based at the University or one of the nearby hospitals, where you will work alongside professional laboratory scientists. Undertaking a long research project is an integral part of the course and prepares graduates for employment and PhD programmes.

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

### CAREER SECTORS

The research training you receive and the research project you conduct will provide a training that PhD supervisors and employers value highly.

[www.le.ac.uk/molecgen-msc](http://www.le.ac.uk/molecgen-msc)

## MOLECULAR PATHOLOGY AND THERAPEUTICS OF CANCER

**This is for you if...** you want to study the molecular pathology, biology and therapeutics of cancer at an advanced level, and develop a dynamic career in biological research or continue with further postgraduate study.

### COURSE LEVEL

MSc

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

2:2 degree (or equivalent) in a relevant bioscience subject, such as biology, molecular biology, biochemistry, biotechnology, pharmacology.

We also welcome applicants with significant relevant industrial or professional experience, and medically qualified applicants with a strong background in molecular biology and/or cell biology.

### CURRENT MODULES

In the taught modules, you will gain expertise and knowledge in cancer molecular and cell biology, treatment, prevention, anti-cancer target discovery and validation, clinical trials, imaging, cancer risk and epidemiology and biostatistics.

- Molecular Pathology and Cell Biology of Cancer
- Molecular Methods and Experimental Design
- Cancer Therapeutics
- You will also undertake a long research project working alongside an expert who will guide you through a research topic related to his/her research interests. These long projects can either be based at the University or one of the nearby hospitals, where you will work alongside professional laboratory scientists. Undertaking a long research project is an integral part of the course and prepares graduates for employment and PhD programmes.

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

### CAREER SECTORS

The research training you receive and the research project you conduct will provide a training that PhD supervisors and employers value highly.

[www.le.ac.uk/molecular-pathology-msc](http://www.le.ac.uk/molecular-pathology-msc)

## POST MORTEM RADIOLOGY FOR NATURAL AND FORENSIC DEATH INVESTIGATION

**This is for you if...** you want to increase your knowledge, skills and diagnostic confidence in natural and forensic death investigative post mortem radiology.

### COURSE LEVEL

MSc, PG Dip, PG Cert

### MODE OF STUDY

Each module consists of five days on-campus teaching with distant blended learning

### LENGTH OF COURSE

Six – 27 months

### ENTRY REQUIREMENTS

A UK honours degree (2:2 or above in a relevant subject, or equivalent) or a minimum of 60 credits (inclusive of research) at level 6.

Two references, one demonstrating your academic ability and the other your relevant professional work experience.

For the Diploma or Master's there will be more advanced instruction involving the interpretation of basic computed tomography images. To deal with this, you should have a demonstrable good working knowledge of anatomy and familiarity with medical imaging.

### CURRENT MODULES

- Introduction to Post Mortem Radiology
- Practical Aspects of Post Mortem Radiology
- Advanced Post Mortem Radiology – Adult Natural Death
- Advanced Post Mortem Radiology – Adult Unnatural Death 1
- Advanced Post Mortem Radiology – Adult Unnatural Death 2
- Research Designs in Applied Health
- You will also undertake a long research project working alongside an expert who will guide you through a research topic related to his/her research interests. These long projects can either be based at the University or one of the nearby hospitals, where you will work alongside professional laboratory scientists. Undertaking a long research project is an integral part of the course and prepares graduates for employment and PhD programmes.

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

### CAREER SECTORS

This course is designed to enhance the career opportunities of those working in the field of post mortem radiology and imaging.

[www.le.ac.uk/post-mortem-radiology-msc](http://www.le.ac.uk/post-mortem-radiology-msc)

# Museum Studies

"I've benefitted greatly from the extensive range of module topics. They've filled my knowledge gaps and have enabled me to have a deeper and better understanding, not only of art museums and galleries, but of the whole art ecosystem."

*Jane, MA Art Museum and Gallery Studies*

Over the past 50 years, we have acquired a global reputation for leading-edge thinking and experimental practice in museum studies. Researchers, practitioners and postgraduate students come together to think creatively and critically about museums, galleries and heritage. These insights will help you develop the knowledge, understanding and skills required of today's versatile museum professional.

### ART MUSEUM AND GALLERY STUDIES

**This is for you if...** you want to develop the knowledge and skills required to become an art museum and gallery specialist, or as preparation for further postgraduate study.

#### COURSE LEVEL

MA, PG Dip

#### MODE OF STUDY

On campus

#### LENGTH OF COURSE

PG Dip: Nine months, MA: 12 months full-time

#### ENTRY REQUIREMENTS

Either a 2:2 degree or above in any subject area **or** be able to demonstrate equivalent skills and aptitudes through the possession of a professional or vocational qualification and/or the accrual of relevant work experiences. Relevant experience can come from a wide spectrum of work or voluntary environments but clear evidence of this experience must be provided.

#### CURRENT MODULES

- Locating the Art Institution
- Becoming Expert
- Curating Now
- Managing Art Collections
- Designing for Creative Lives
- Entering the Field
- Practice – Eight weeks of work experience in a museum, gallery or related institution
- Research Project – You will undertake supervised research into a topic of your choice and complete a research project. Those who wish to obtain a Postgraduate Diploma do not complete this.

#### ENGLISH LANGUAGE

6.5 IELTS or equivalent

[www.le.ac.uk/art-museum-gallery-ma](http://www.le.ac.uk/art-museum-gallery-ma)

### HERITAGE AND INTERPRETATION

**This is for you if...** you want the flexibility of studying part-time from anywhere in the world while gaining the knowledge and skills you need to develop your career in the heritage sector.

#### COURSE LEVEL

MA, MSc, PG Dip

#### MODE OF STUDY

Flexible learning

#### LENGTH OF COURSE

PG Dip: 18 months, MA/MSc: two years

#### ENTRY REQUIREMENTS

Either a 2:2 degree or above in any subject area **or** be able to demonstrate equivalent skills and aptitudes through the possession of a professional or vocational qualification, and/or the accrual of relevant work experiences. Relevant experience can come from a wide spectrum of work or voluntary environments but clear evidence of this experience must be provided.

#### CURRENT MODULES

- Locating Heritage
- Making Heritage
- Supporting Heritage
- Interpreting Heritage
- Research Project – You will undertake supervised research into a topic of your choice and complete an 8,000-10,000-word research project. For the Postgraduate Diploma, you will complete all of the modules but not the supervised research project.
- If your research project concerns a science collection or museum, or if the nature of your investigation is 'scientific', you can receive a Master of Science (MSc) degree instead of a Master of Arts (MA) degree.

#### ENGLISH LANGUAGE

6.5 IELTS or equivalent

[www.le.ac.uk/heritage-interpretation-ma-dl](http://www.le.ac.uk/heritage-interpretation-ma-dl)

## MUSEUM STUDIES

**This is for you if...** you want to develop the knowledge and skills required to move into a variety of careers in museums and galleries, or as preparation for further postgraduate study.

### COURSE LEVEL

MA, MSc, PG Dip

### MODE OF STUDY

On campus

### LENGTH OF COURSE

PG Dip: Nine months, MA/MSc: 12 months full-time

### ENTRY REQUIREMENTS

Either a 2:2 degree or above in any subject area **or** be able to demonstrate equivalent skills and aptitudes through the possession of a professional or vocational qualification, and/or the accrual of relevant work experiences. Relevant experience can come from a wide spectrum of work or voluntary environments but clear evidence of this experience must be provided.

### CURRENT MODULES

- Developing Expertise
- The Museum and Change
- Objects and Collections
- Engaging Audiences
- Practice – eight weeks of work experience in a museum, gallery or related institution
- Research Project – You will undertake supervised research into a topic of your choice and complete an 8,000-word dissertation or comparable piece of work, such as a paper, a critique or a professional report. For the Postgraduate Diploma, you will complete all of the modules but not the supervised research project. If your research project concerns a science collection or museum, or if the nature of your investigation is 'scientific', you can receive a Master of Science (MSc) degree instead of a Master of Arts (MA) degree.

### ENGLISH LANGUAGE

6.5 IELTS or equivalent

[www.le.ac.uk/museum-ma-msc](http://www.le.ac.uk/museum-ma-msc)

## MUSEUM STUDIES

**This is for you if...** you want the flexibility of studying part-time from anywhere in the world whilst gaining the knowledge and skills you need to develop your career in the museum and galleries profession.

### COURSE LEVEL

MA, MSc, PG Dip

### MODE OF STUDY

Flexible learning

### LENGTH OF COURSE

PG Dip: 18 months, MA/MSc: two years

### ENTRY REQUIREMENTS

Either a 2:2 degree or above in any subject area **or** be able to demonstrate equivalent skills and aptitudes through the possession of a professional or vocational qualification, and/or the accrual of relevant work experiences. Relevant experience can come from a wide spectrum of work or voluntary environments but clear evidence of this experience must be provided.

### CURRENT MODULES

- Locating Museums: Communities and Contexts
- Managing Resources in the Museum
- Engaging Visitors and Audiences
- Planning Projects and Designing Interpretive Exhibitions
- Research Project – You will undertake supervised research into a topic of your choice and complete an 8,000-10,000-word dissertation. For the Postgraduate Diploma, you will complete all of the modules but not the supervised research project.
- If your research project concerns a science collection or museum, or if the nature of your investigation is 'scientific', you can receive a Master of Science (MSc) degree instead of a Master of Arts (MA) degree.

### ENGLISH LANGUAGE

6.5 IELTS or equivalent

[www.le.ac.uk/museum-ma-msc-dl](http://www.le.ac.uk/museum-ma-msc-dl)

## MUSEUM STUDIES (HONG KONG)

**This is for you if...** you are based in, or near, Hong Kong and you want to gain the knowledge and skills you need to develop your career in the museum and galleries profession.

The Hong Kong course follows the flexible learning Museum Studies curriculum, but also includes a local Hong Kong based tutor and a Study Week delivered in Hong Kong each year by academics from the School of Museum Studies.

### COURSE LEVEL

MA, MSc, PG Dip

### MODE OF STUDY

Flexible learning

### LENGTH OF COURSE

PG Dip: 18 months, MA/MSc: two years

### ENTRY REQUIREMENTS

Either a 2:2 degree or above in any subject area **or** be able to demonstrate equivalent skills and aptitudes through the possession of a professional or vocational qualification, and/or the accrual of relevant work experiences. Relevant experience can come from a wide spectrum of work or voluntary environments but clear evidence of this experience must be provided.

### CURRENT MODULES

- Locating Museums: Communities and Contexts
- Managing Resources in the Museum
- Engaging Visitors and Audiences
- Planning Projects and Designing Interpretive Exhibitions
- Research Project – You will undertake supervised research into a topic of your choice and complete an 8,000-10,000-word dissertation. For the Postgraduate Diploma, you will complete all of the modules but not the supervised research project.
- If your research project concerns a science collection or museum, or if the nature of your investigation is 'scientific', you can receive a Master of Science (MSc) degree instead of a Master of Arts (MA) degree.

### ENGLISH LANGUAGE

6.5 IELTS or equivalent

[www.le.ac.uk/hkmuseum-ma-msc-dl](http://www.le.ac.uk/hkmuseum-ma-msc-dl)

## SOCIALLY ENGAGED PRACTICE IN MUSEUMS AND GALLERIES

**This is for you if...** you want a flexible, part-time course that allows you to develop skills and expertise to advance the role of museums and galleries as agents of inclusion and social change.

### COURSE LEVEL

MA, MSc, PG Dip, PG Cert or Short Course

This is a very flexible programme with a range of qualifications on offer, from a Postgraduate Certificate (if you complete two modules of your choice) and a Postgraduate Diploma (four modules) to a full MA or MSc (four modules plus a dissertation). If you would like to build up to a qualification over time in a flexible manner, or wish to take just one of the modules as a taster, you can also opt to register for a single module (four months part-time).

### MODE OF STUDY

Flexible learning

### LENGTH OF COURSE

Four months – two years

### ENTRY REQUIREMENTS

Either a 2:2 degree or above in any subject area **or** be able to demonstrate equivalent skills and aptitudes through the possession of a professional or vocational qualification, and/or the accrual of relevant work experiences. Relevant experience can come from a wide spectrum of work or voluntary environments but clear evidence of this experience must be provided.

### CURRENT MODULES

- Exploring Socially Engaged Practice in Museums and Galleries
- Engaging Audiences: Education, Learning and Participation
- Research and Evaluation for Socially Engaged Museum and Gallery Practice
- Project in Practice: Developing Socially Engaged Practice in Museums and Galleries
- Dissertation

### ENGLISH LANGUAGE

6.5 IELTS or equivalent

[www.le.ac.uk/soc-engaged-museum-ma-dl](http://www.le.ac.uk/soc-engaged-museum-ma-dl)

# Physics and Astronomy

Leicester is a world-renowned centre for space research. On our accredited course, you'll work on your own industry-relevant research projects and have the chance to study in one of Europe's leading space centres. Graduate equipped with the top-level professional skills and advanced project experience needed to meet the requirements of the European and international space sectors.

## SPACE EXPLORATION SYSTEMS

**This is for you if...** you want the in-depth knowledge and professional skills to embark on a successful career in the thriving and innovative international space industry.

### COURSE LEVEL

MSc, PG Dip

### MODE OF STUDY

On campus

### LENGTH OF COURSE

Six to 12 months full-time or two years part-time

### ENTRY REQUIREMENTS

2:1 BSc, BEng, MPhys, MEng or Master's (or equivalent) in Physics or Engineering.

We consider applicants with a 2:2, or a degree in another science subject, on a case-by-case basis.

### CURRENT MODULES

- Foundations of Professional Space Science and Engineering
- MATLAB and CAD
- Systems Engineering and Spacecraft Systems
- Spaceflight Dynamics and Propulsion
- Space and Planetary Environment, Planetary Surfaces
- Spacecraft Instrumentation for Space and Planetary Science
- Human Spaceflight and Nuclear Systems
- Advanced Spacecraft Engineering
- Aerospace Materials
- Major Research Project (MSc only)
- Optional Space Exploration Development Systems (SEEDS) Research Project in UK, France and Italy (MSc only)

### ENGLISH LANGUAGE

IELTS 6.0 or equivalent

[www.le.ac.uk/ses-msc](http://www.le.ac.uk/ses-msc)

"The SEEDS MSc challenged me to design a space mission from scratch – in my case, a human mission to Mars. During the design phase, I also had the opportunity to travel to three other European institutions that specialise in space science and engineering – it was a fantastic experience"

*Jack, MSc Space  
Exploration Systems*

# Politics and International Relations

"The course has provided me an opportunity to improve my academic capabilities and represent my beliefs in a professional manner. The passion for international relations and politics that the staff display has convinced me that all my future goals are attainable."

*Matt, MA International  
Relations and World Order*

The global political climate is ever-changing, making it one of the most topical and fascinating areas of study. With research excellence in areas as diverse as the political representation of citizens of immigrant origin and cyber weaponry, our degrees are modern, innovative and place you at the cutting-edge of current political debate.

### **HUMAN RIGHTS AND GLOBAL ETHICS**

**This is for you if...** you want to develop a deeper understanding of human rights in the world today and key ethical issues confronting the world.

#### **COURSE LEVEL**

MA, PG Dip

#### **MODE OF STUDY**

On campus

#### **LENGTH OF COURSE**

One year full-time

#### **ENTRY REQUIREMENTS**

2:1 degree or its equivalent in Politics, History, International Relations or other related subjects.

#### **CURRENT MODULES**

##### **Core modules**

- The Politics of Human Rights
- Dissertation

##### **Option modules**

- International Security
- American Foreign Policy
- Governance and Corruption
- Global Ethics in Practice
- Post-Cold War World Order
- Intelligence and Security
- The Holocaust: A Genocide – Mass Murder in Comparative Perspective
- After the Holocaust
- American Freedom
- Global Cities: the View from Asia
- Legal Responses to Global Injustice
- The State, The Law and Religious Freedom
- Feminist Perspectives on International Law
- Freedom of Expression

#### **ENGLISH LANGUAGE**

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

[www.le.ac.uk/humanrights-ethics-ma](http://www.le.ac.uk/humanrights-ethics-ma)

### **INTERNATIONAL RELATIONS AND WORLD ORDER**

**This is for you if...** you are interested in studying the post-Cold War world and debates about its character in International Relations.

#### **COURSE LEVEL**

MA, PGDip

#### **MODE OF STUDY**

On campus

#### **LENGTH OF COURSE**

One year full-time

#### **ENTRY REQUIREMENTS**

2:1 degree or its equivalent in Politics, History, International Relations or other related subjects.

#### **CURRENT MODULES**

##### **Core modules**

- Post-Cold War World Order
- Dissertation

##### **Option modules**

- American Foreign Policy
- Governance and Corruption
- Global Ethics in Practice
- Intelligence and Security
- The Politics of Human Rights
- The Holocaust: A Genocide – Mass Murder in Comparative Perspective
- After the Holocaust
- American Freedom
- Global Cities: the View from Asia

#### **ENGLISH LANGUAGE**

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

[www.le.ac.uk/int-relations-ma](http://www.le.ac.uk/int-relations-ma)

## INTERNATIONAL SECURITY STUDIES

**This is for you if...** you want to study the theory and practice of contemporary international security, and its relevance to a wider range of issues in the discipline of International Relations.

### COURSE LEVEL

MA, PGDip

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time

### ENTRY REQUIREMENTS

2:1 degree or its equivalent in Politics, History, International Relations or other related subjects.

### CURRENT MODULES

#### Core modules

- International Security
- Dissertation

#### Option modules

- American Foreign Policy
- Governance and Corruption
- Global Ethics in Practice
- Post-Cold War World Order
- Intelligence and Security
- The Politics of Human Rights
- The Holocaust: A Genocide – Mass Murder in Comparative Perspective
- After the Holocaust
- American Freedom
- Global Cities: the View from Asia

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

- The Transformation of Modern Warfare
- The Politics of Global Nuclear Order
- The Politics of Violent Conflict and its Legacies in Northern Ireland
- Political Economy of International Development

### ACCREDITATION

The University of Leicester is an academic partner of the NATO Defense College.

### CAREER SECTORS

This degree is ideally suited to anyone aspiring to a diplomatic career or professional diplomats requiring additional training. Depending on the choice of options, it is also appropriate if you wish to pursue a career in Government, defence-related work, international organisations, journalism or teaching – or to proceed to a research degree.

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

[www.le.ac.uk/diplomatic-ma-dl](http://www.le.ac.uk/diplomatic-ma-dl)

## HUMAN RIGHTS AND GLOBAL ETHICS

**This is for you if...** you want to develop a deeper understanding of human rights and key ethical issues confronting the world today.

### COURSE LEVEL

MA, PG Dip, PG Cert

### MODE OF STUDY

Off campus (distance learning)

### LENGTH OF COURSE

Two years part-time

### ENTRY REQUIREMENTS

2:1 degree or its equivalent in Politics, History, International Relations or other related subjects. Equivalent relevant professional experience may be considered.

### CURRENT MODULES

#### Core modules

- The Politics of Human Rights
- Dissertation

#### Option modules

- Politics of Global Modern Nuclear Order
- The Transformation of Modern Warfare
- The Politics of Violent Conflict and Its Legacies in Northern Ireland
- Gender in Global Perspective
- American Interventionism after the Cold War
- Europe as a Global Actor
- International Security
- International Politics of Protection
- Strategy in the Modern World
- Democracy and Legitimacy in the European Union
- Diplomatic Systems
- EU Enlargement and Democratic Consolidation in Post-Communist Europe
- Euroscepticism
- Governance and Corruption
- Intelligence and Security
- Theories of International Relations
- Political Economy of International Development

### ACCREDITATION

The University of Leicester is an academic partner of the NATO Defense College.

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

[www.le.ac.uk/humanrights-ethics-ma-dl](http://www.le.ac.uk/humanrights-ethics-ma-dl)

## INTELLIGENCE AND SECURITY

**This is for you if...** you are interested in the study of intelligence and security, and want to gain the knowledge and skills to further enhance your professional or academic prospects.

### COURSE LEVEL

MA

### MODE OF STUDY

Off campus (distance learning)

### LENGTH OF COURSE

Two years part-time

### ENTRY REQUIREMENTS

2:1 degree or its equivalent in Politics, History, International Relations or other related subjects.

### CURRENT MODULES

- Intelligence: Key Concepts and Debates
- Intelligence Techniques and Tradecraft
- Intelligence Failure
- Intelligence Ethics
- Dissertation

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

### ACCREDITATION

This is the first course in Britain, and only the second worldwide, to be accredited by the International Association for Intelligence Education (IAFIE), an international organisation dedicated to expanding research, knowledge and professional development in intelligence education.

The University of Leicester is an academic partner of the NATO Defense College.

### CAREER SECTORS

The MA in Intelligence and Security will be especially beneficial if you are seeking professional development and/or enhanced employability working with intelligence in central government, the military, the police, private security sector, non-governmental organisations, the UN or other international organisations.

[www.le.ac.uk/intel-security-ma-dl](http://www.le.ac.uk/intel-security-ma-dl)

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

[www.le.ac.uk/occup-psych-msc-dl](http://www.le.ac.uk/occup-psych-msc-dl)

## PSYCHOLOGY OF WORK

**This is for you if...** you want a sound knowledge and understanding of a broad range of topics in occupational psychology and to learn how this knowledge can be applied to the solution of problems that arise in occupational settings.

### COURSE LEVEL

MSc, PG Dip

### MODE OF STUDY

Off campus (distance learning)

### LENGTH OF COURSE

One to two years part-time

### ENTRY REQUIREMENTS

Second class honours degree in Psychology or a related subject (e.g. Business or Health Studies), or equivalent.

You must also have some occupational experience.

### CURRENT MODULES

- Learning, Training and Development
- Psychological Assessment at Work
- Work Design, Organisational Change and Development
- Leadership, Engagement and Motivation
- Research Methods
- Application of Occupational Psychology
- Wellbeing at Work
- Dissertation – MSc only

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

[www.le.ac.uk/psych-work-msc-dl](http://www.le.ac.uk/psych-work-msc-dl)

## PSYCHOLOGY

**This is for you if...** you are looking for a course that will support you in pursuing a career as a professional psychologist.

### COURSE LEVEL

MSc

### MODE OF STUDY

Off campus (distance learning)

### LENGTH OF COURSE

Two years part-time

### ENTRY REQUIREMENTS

Second class honours degree.

### CURRENT MODULES

- Research Methods
- Cognitive Psychology
- Abnormal Psychology and Individual Differences
- Biological Psychology
- Social and Developmental Psychology
- Applied Psychology
- Dissertation

### ENGLISH LANGUAGE

IELTS 6.5 or equivalent. If your first language is not English, you may need to provide evidence of your English language ability.

[www.le.ac.uk/psychology-msc-dl](http://www.le.ac.uk/psychology-msc-dl)

# Sociology

Sociology is topical and relevant, touching on many areas of life. Learn about contemporary issues in society from experts conducting cutting-edge research. Develop critical analytical skills and graduate with a cultural fluency that is rare and valuable in our inter-connected global society.

## CONTEMPORARY SOCIOLOGY

**This is for you if...** you want to gain a deeper understanding of key sociological issues and debates and develop your social research skills.

### COURSE LEVEL

MA

### MODE OF STUDY

On campus

### LENGTH OF COURSE

One year full-time or two years part-time

### ENTRY REQUIREMENTS

2:1 honours degree in a relevant social science subject.

### CURRENT MODULES

#### Core modules

- Issues in Contemporary Society
- Research Questions to Research Design
- Exploring the Social World
- Debates in Contemporary Sociology
- Qualitative Data Collection and Analysis
- Dissertation

#### Option modules

- New Communication Technologies, Social Media and Digital Politics
- Race and Ethnicity
- Sociology of Health and Illness

### ENGLISH LANGUAGE

# Disclaimer

Unless specifically stated photography is for illustrative purposes only and does not imply pictured students are students of the University or of specific programmes.

Where a department describes itself in such terms as “world-leading”, “internationally renowned” or similar, this refers to scores achieved in the latest (2014) Research Excellence Framework (REF), which allocates an excellence rating to academic research undertaken in that department. The REF ratings are:

- 4\* World-Leading
- 3\* Internationally Excellent
- 2\* Recognised Internationally
- 1\* Recognised Nationally

For more information see [www.ref.ac.uk](http://www.ref.ac.uk)

The Students' Union is a separate legal entity to the University and it may, from time-to-time, change its provision of services.

This prospectus © University of Leicester 2018.  
All rights reserved.

Edited by the External Relations Division.

Designed by the Creative Team, University of Leicester and Simm Design. Printed by Belmont Press.

This prospectus was published in February 2018.

The University of Leicester endeavours to ensure that the content of its prospectus, programme specification, website content and all other materials are complete and accurate. On occasion it may be necessary to make some alterations to particular aspects of a course or module, and where these are minor, for example altering the lecture timetable or location, then we will ensure that you have as much notice as possible of the change to ensure that the disruption to your studies is minimised.

However, in exceptional circumstances it may be necessary for the University to cancel or change a programme or part of the specification more substantially. For example, due to the unavailability of key teaching staff, changes or developments in knowledge or teaching methods, the way in which assessment is carried out, or where a course or part of it is over-subscribed to the extent that the quality of teaching would be affected to the detriment of students. In these circumstances, we will contact you as soon as possible and in any event will give you 25 days written notice before the relevant change is due to take place. Where this occurs, we will also and in consultation with you, offer you an alternative course or programme (as appropriate) or the opportunity to cancel your contract with the University and obtain a refund of any advance payments that you have made.

Full Terms and Conditions and Senate Regulations governing our teaching programmes can be found here:

Professor P S Monks, BSc, DPhil, FRMetS, FRSC

College of Social Sciences, Arts and Humanities:

Professor J Coleman, BA, MA, PhD, FHEA, FEA

College of Medicine, Biological Sciences and Psychology:

Professor P Baker, BMedSci, BM, BS, DM, FRCOG, FMedSci

### Graduate Dean

Professor D G Lambert, BSc, PhD, SFHEA, FRCA

### Registrar and Chief Operating Officer

Mr D E Hall, BA

# 100 years

## Our history is everyone's story

Born out of a desire to avoid future conflict the University of Leicester has played a vital role in our extended community, and more recently our global community since it officially opened its doors in 1921.

But our story began in 1918 when with so many lives having been touched by conflict a decision was made to build a University. Since then our community has entrusted us with educating their sons and daughters and sharing knowledge. A century on we have hundreds of stories to tell.

Leicester students during Prince of Wales's visit in 1927
